1. ISSUER PROFILE

1.1 Organisation of the Company

A proper corporate governance system must be based on certain key elements, such as the central role of the Board of Directors and Top Management, the proper management of conflicts of interest, transparency in the disclosure of corporate decisions, and an efficient internal control system.

As a public limited company subject to Italian law, and a bank subject to TUB, Banca Generali has set up a governance system firmly grounded on the said principles.

Against this background, with a view to reinforcing minimum standards of corporate organisation and governance, and ensuring “healthy and prudent management” (Article 56 of TUB), by Order no. 264010 of 4 March 2008, entitled “Supervisory Provisions on the corporate organisation and governance of banks”, the Bank of Italy established a regulatory framework under which organisation is to play a central role in strategic corporate policy-making and risk assessment and management within the banking and financial industry.

In adapting its organisational structure to the changed legal framework, Banca Generali pursued the following objectives: (i) a clear definition of functions and responsibilities; (ii) the appropriate balancing of delegated powers; (iii) the balanced composition of corporate organs; (iv) an integrated and effective internal control system; (v) comprehensive risk assessment and management; (vi) a remuneration structure in line with risk-management policies and long-term corporate strategy; (vii) adequate reporting systems and information flows.

Banca Generali’s organisational structure is made of the following main corporate boards and officers:

- i) Board of Directors;
- ii) Chairman of the Board of Directors;
- iii) Chief Executive Officer;
- iv) Remuneration and Nomination Committee;
- v) the Internal Audit and Risk Committee;
- vi) General Shareholders’ Meeting;
- vii) Board of Statutory Auditors.

Other corporate boards and officers include the General Management, and persons vested with powers of representation pursuant to the provisions of the Articles of Association.

The Company’s organisational structure is based on the classical model of corporate governance.

Responsibility for the strategic supervision of the company lies solely with the Board of Directors (the “Board”).

The Board of Directors is appointed by the Shareholders’ Meeting, for a three-year term. The Board of Directors shall elect, from amongst its members, a Chairman, and if it deems fit, a Vice Chairman and may also appoint one or more Chief Executive Officers, determining the powers and responsibilities thereof. The Board of Directors can also appoint a General Manager, one or more Joint General Managers and one or more Deputy General Managers, who together constitute the General Management.

Responsibility for company management lies with the Chief Executive Officer and General Managers.

Appointed Committees may act solely in a consultative and advisory capacity.

The Remuneration and Nomination Committee is in fact tasked with providing the Board of Directors with advisory opinions and non-binding recommendations on nominations and remuneration, and is accordingly vested with the authority and independence of judgement required to assess the appropriateness of remuneration policies and plans, and related repercussions in terms of risk taking and risk management. More specifically, the Remuneration and Nomination Committee is in charge of: (i) providing the Board of Directors with advisory opinions and non-binding recommendations on the determination of the remuneration of the Chairman of the Board of Directors, the Chief Executive Officer, the General Manager, the Joint General Manager, and the Central Manager, as well as managers tasked with oversight and control functions, and any and all other executives and managers invested with powers and responsibilities that could impact the Bank’s risk profile; (ii) expressing opinions to the Board of Directors regarding its size and composition and expressing recommendations with regard to the professional skills necessary within the Board; and (iii) expressing opinions to the Board of Directors on resolutions concerning the prior identification of its members’ qualities and number and the optimal profile of candidate directors in order to comply with the required professionalism and composition of company bodies pursuant to the supervisory law in force from time to time.

The Internal Audit and Risk Committee is tasked with: (i) assisting the Board of Directors in laying down the guidelines of the internal control and risk management system, periodically check-

ing that said system is adequate to the bank's characteristics and risk profile, reviewing its effective functioning and also ensuring that the major company risks have been identified, adequately measured, managed and monitored, as well as determining the degree to which such risks are compatible with management of the enterprise in accordance with the strategic goals identified, in liaison with the responsible company functions; (ii) expressing its opinion regarding related party and connected party transactions, in accordance with the terms and conditions set forth in the Procedure for Related Party and Connected Party Transactions approved by Banca Generali pursuant to applicable laws and regulations; (iii) assisting the Board of Statutory Auditors in discharging its statutory auditing duties pursuant to the provisions of Legislative Decree no. 39 of 27 January 2010; and (iv) expressing opinions in compliance with the Equity Investment Management Policy.

The General Shareholders' Meeting (the "Shareholders' Meeting") passes resolutions expressing the intentions of the shareholders. Resolutions approved by the Shareholders' Meeting pursuant to statutory provisions and the Articles of Association are binding on all the Company's shareholders, including those abstaining or dissenting.

Responsibility for control lies with the Board of Statutory Auditors, appointed by the Shareholders' Meeting, for a three-year term. The Board of Statutory Auditors is not responsible for statutory auditing of the Company's accounts, a task entrusted to Independent Auditors duly registered with the specific professional rolls set by the Italian market regulator, Consob. The Independent Auditors are bound to monitor the proper book-keeping of the Company's accounts, during the course of the financial year, and to ensure that the Company's books faithfully reflect management trends. The Independent Auditors are also in charge of checking that the figures carried in the annual and consolidated financial statements present a true and fair account of the Company's books and that all accounting documents are compliant with applicable regulations.

The powers and operating procedures of the corporate organs are governed by law, the Articles of Association and the resolutions approved by the relevant organs.

The Articles of Association are available at the Company's registered office and can also be consulted on the Company's website (www.bancagenerali.com) under section *Corporate Governance - Corporate Governance System*.

its Parent Company, Assicurazioni Generali S.p.A., within the meaning and for the intents and purposes of Article 2497 of the Italian Civil Code. It must accordingly be pointed out that:

- the information to be disclosed pursuant to Article 123-bis, paragraph 1, subparagraph (i) ("*agreements between companies and directors, members of the managing board or the supervisory board, providing for indemnities in the event of resignation or dismissal without just cause, or otherwise, the termination of their employment contracts as a result of a takeover bid*") is contained in the section of the Report focusing on Directors' remuneration (Section 8), as well as in the Remuneration Report to be published pursuant to Article 123-ter of the TUF;
- the information to be disclosed pursuant to Article 123-bis paragraph 1, subparagraph (l) ("*rules implemented in departure from the statutory and regulatory framework applicable by default to the appointment and replacement of directors and members of the managing board and the supervisory board, as well as the amendment of the Articles of Association*") is set forth in the section of the Report focusing on the Board of Directors (Section 4.1).

3. COMPLIANCE (pursuant to Article 123-bis, paragraph 2, letter a) of TUF)

Banca Generali S.p.A. (the "Company") was admitted for listing on the electronic share market (MTA) managed by Borsa Italiana S.p.A. in November 2006, and on such occasion adopted the Code, having determined that bringing its corporate governance system (and that is to say, the framework of rules, principles and procedures making up a company's management and internal control system) in line with the international best practices of business administration on which the Code is based is a basic pre-requisite for achieving the Company's goals. These goals in fact include not only the creation of value for shareholders and customer satisfaction, but also the quest for excellence in terms of the transparency of decision-making processes, the efficiency of internal control systems and the probity and rigour in related party and connected party transactions and/or transactions entailing a potential conflict of interests, as well as constant professionalism, probity and respect in all relationships with shareholders, customers and, in general, all the Company's stakeholders. Fully aware that no corporation can hope to boost its reputation for reliability without implementing effective and efficient operating rules and procedures, the Company, at the Board of Directors on 18 February 2013, has updated its Internal Code of Conduct to align it to the rules of conduct, where not already provided, contained in the Generali Group's Code of

Conduct approved by the parent company in December 2012 in replacement of the Ethical Code. The Code of Conduct sets out the minimum standards of conduct to be observed in relations with colleagues, customers, competitors, suppliers and other stakeholders. The Code contains explicit rules and principles relating to Corporate Social Responsibility, the promotion of diversity and inclusion, safety and health in the workplace, the protection of company assets, fair competition and antitrust and the fight against corruption and bribery.

Moreover, Banca Generali,

- (i) at the meeting of 21 February 2012, Banca Generali, in accordance with principle 7.P.4 of the mentioned Code, renamed the Internal Control Committee as Internal Audit and Risk Committee while redefining the functions assigned to it;
- (ii) at the meeting of 24 April 2012, pursuant to principles 5.P.1 and 6.P.3 of the above mentioned Code, Banca Generali set up the Nomination and Remuneration Committee while defining the tasks assigned to it.

The Corporate Governance Code is available to the public on Borsa Italiana website: www.borsaitaliana.it.

4. BOARD OF DIRECTORS

4.1 Appointment and replacement of the Board of Directors (pursuant to Article 123-bis, paragraph 1, letter I) of TUF)

Pursuant to Article 15 of the Articles of Association, the Company is managed by a Board of Directors made up of no less than 7 (seven) and no more than 12 (twelve) members, appointed by the Shareholders' Meeting after determination of the number of members. Members of the Board of Directors hold office for a maximum of three financial years. Their term ends on the date of the meeting called to approve the financial statements of the last financial year of said term and they are eligible for reappointment. In the case of appointment during the period of office, the mandate of the newly appointed members will expire with that of members already in office.

Board members must possess the legal requisites also, within the limits established by law, in terms of independence. It should be recalled that the TUB sets precise integrity and professionalism requirements for banks' directors.

In detail, since the Company is an Italian bank, in compliance with Article 26 of Legislative Decree no. 385 of 1 September 1993 and related implementing provisions (Regulation no. 161 issued by the Ministry of the Treasury, Budget and Economic Planning, on 18 March 1998), its Board members are selected on the basis of very high standards of professionalism and competency and must have acquired, on the overall, at least three years' experience (i) as a company director, corporate officer or high level executive; (ii) in professional practice in the banking, financial, real estate, insurance sectors or other fields pertinent to the Company's business; (iii) in academia, especially in the fields of law or economics; (iv) as a senior civil servant with public undertakings specialising in the banking, financial, real estate, insurance sectors, or with public administrations, bodies or undertakings that are not directly involved in the aforesaid sectors, provided that the job description pertaining to the position held, entailed the management of economic and financial resources. The persons appointed as Chairman of the Board and Chief Executive Officer must have acquired at least five years' experience in the above fields and/or positions.

Moreover, pursuant to the provisions of Article 26 of Legislative Decree no. 385 of 1 September 1993 and Article 147-*quinquies* of TUF, Board members must meet the requirements of personal integrity imposed on members of supervisory organs under Regulation no. 162 issued by the Ministry of Justice on 30 March 2000, as well as the requirements pertaining specifically to bank executives, under Regulation no. 161 issued by the Ministry of the Treasury, Budget and Economic Planning, on 18 March 1998. It should finally be noted that six members of Banca Generali's Board of Directors have been found to satisfy applicable inde-

pendence requirements, in accordance with the principles set forth in the Corporate Governance Code for listed companies (issued by Consob in Notice no. DEM/10078683 of 24 September 2010, and equivalent to the standards contemplated in Article 148, paragraph 3, of Legislative Decree no. 58/1998) whilst seven members satisfy the independence requirements pursuant to Article 37, paragraph 1, subparagraph (d), of the Regulation adopted by Consob Resolution no. 16191 of 29 October 2007, as further amended and extended.

Members of the Board of Directors are appointed on the basis of lists of candidates. Those shareholders who alone or in conjunction with other shareholders represent the percentage of share capital envisaged for the Company by current applicable regulations are entitled to submit a list. As established by Article 144-*quater* of the Rules for Issuers, this percentage is currently 1.00%. The appointment mechanism based on the so-called voting lists ensures transparency as well as timely and adequate information on the personal and professional profiles of the candidates for directorships.

In order to ensure that the governing bodies includes persons capable of ensuring that the role assigned to them is discharged effectively, the Board of Directors, with the advisory support of the Remuneration and Nomination Committee, shall (i) define in advance the professional expertise required to achieve this result, (ii) define the qualitative and quantitative composition of company bodies (determining and justifying the theoretical profiles of candidates considered suitable, including as regards professional qualifications and independence) in relation to the bank's characteristics and (iii) subject such definition to periodic self-assessment. The results of the above analysis shall be submitted to the shareholders' attention in a timely manner so that the process of selecting and appointing candidates may take account of such indications.

Each shareholder (as well as (i) shareholders belonging to the same group, the latter being defined to include the party, which need not necessarily be a corporation, exercising control within the meaning of Article 2359 of the Italian Civil Code, and each subsidiary controlled by, or under the common control of the said party or (ii) shareholders who have entered into the same shareholders' agreement within the meaning of Article 122 of Legislative Decree no. 58 of 24 February 1998, or (iii) shareholders who are otherwise associated with each other by virtue of associative relationships contemplated under the applicable statutory and/or regulatory framework) may submit, either on their own or jointly with other shareholders, directly or through third party intermediaries, or trust companies, a single list of candidates, under pain of disqualification of the list. The lists must contain a number of candidates no higher than the number of members to be elected, listed by progressive number with a specific indication of the candidates who meet the statutory requirements of independence. Each candidate may appear on only one list, upon penalty of ineligibility.

The lists submitted by shareholders must be filed at the registered office no later than twenty-five days prior to the date set for the Shareholders' Meeting in first call. Furthermore, the list will be available at the Company's registered office, on the corporate website and in any other forms required by applicable laws and regulations no later than twenty-one days prior to the date set for the Shareholders' Meeting in first call.

If the outgoing Board of Directors submits its own list, the Remuneration and Nomination Committee must express an opinion on the appropriateness of the candidates proposed by the outgoing Board in exercise of its discretion. The list submitted by the outgoing Board of Directors must be lodged with the Company's registered office and published on its website, as well as using other means, no later than the deadlines imposed for such publication under applicable statutory and regulatory provisions. Within the term specified for the publication of the lists by the Company and in order to prove their entitlement to submit lists, shareholders shall file the documentation proving legal ownership of their shareholdings, in accordance with applicable laws and regulations, at the Company's registered office. Within the same term, shareholders who submitted the lists, shall also file at the Company's registered office: (i) information pertaining to the identity of the shareholders submitting the lists, with an indication of the percentage of share capital they jointly hold; (ii) exhaustive information on the personal and professional features of the candidates included in the list; (iii) a declaration by shareholders other than those who, even jointly, hold a controlling interest or relative majority stake, attesting the absence of associative relationships with the latter; (iv) the declarations filed by each candidate, in which each candidate accepts his/her nomination and also certifies, under his/her own responsibility, the inexistence of causes of incompatibility and of ineligibility, possession of the requisites of integrity and professionalism which prevailing laws require for the office of director of the Company, as well as those of independence, if applicable, provided for by the law and by the codes of conduct promoted by companies managing regulated markets or by trade categories, to which the Company adheres. Each shareholder (as well as (i) shareholders belonging to the same group, the latter being defined to include the party, which need not necessarily be a corporation, exercising control within the meaning of Article 2359 of the Italian Civil Code, and each subsidiary controlled by, or under the common control of the said party or (ii) shareholders who have entered into the same shareholders' agreement within the meaning of Article 122 of Legislative Decree no. 58 of 24 February 1998, or (iii) shareholders who are otherwise associated with each other by virtue of associative relationships contemplated under the applicable statutory and/or regulatory framework) shall be entitled to vote for only one list.

Should only one list be submitted, all the members of the Board of Directors shall be appointed from the said list. Should, on the other hand, two or more lists be submitted, the first candidates on the list obtaining the greatest number of votes, equal to eight ninths of the number of members of the Board of Directors de-

termined by the Shareholders' Meeting - with rounding down in the case of split number - will be elected Board members. In the case where the number of Board members belonging to the gender less represented, and appearing on the list that obtained the highest number of votes, is lower than the number required under applicable statutory provisions, the elected candidate with the highest serial number, and belonging to the more represented gender, shall be excluded. The eliminated candidate shall be replaced by the following candidate belonging to the gender less represented and appearing on the same list as the eliminated candidate. In the case where it is not possible to draw from the list obtaining the highest number of votes, the required number of Directors belonging to the gender less represented, the Board seats in question will be filled by appointments made by the General Shareholders' Meeting, by majority vote. The remaining directors will be taken from other lists, not linked in any way, not even indirectly, with the shareholders who submitted or voted for the list which gained the highest number of votes, and to this end the votes obtained by said lists will subsequently be divided by one, two, three and so on, according to the number of directors to be elected. The ratios obtained in this way will be progressively assigned to the candidates of each of the lists, according to the respectively established order of said lists. The ratios thus attributed to the candidates of the various lists will be set out in a single decreasing list. In the event of votes being equal between two or more lists, the younger candidates will be elected until all the posts to be assigned have been filled.

Should it emerge that, at the end of voting, a sufficient number of independent Directors, within the meaning of applicable regulations, has not been elected, the director bearing the highest serial number in the list that obtained the greatest number of votes, and who does not meet the requirements of independence, shall be replaced by the next candidate on the same list, who does meet the said requirements. If necessary, this procedure shall be repeated until all the vacancies of independent directors on the Board have been filled. Should it not be possible to cover all the vacancies on the Board, even after following the procedure mentioned above, the Shareholders' Meeting shall proceed with the appointment of the remaining directors, at the proposal of the shareholders in attendance and by resolution approved by simple majority.

Upon the conclusion of the process of appointing, the Board of Directors (with the advisory support of the Remuneration and Nomination Committee) shall conduct a thorough, formal review that the actual result of the appointment process corresponds to the qualitative and quantitative composition deemed optimal.

As mentioned above, the Board of Directors, on 24 April 2012 established an internal Remuneration and Nomination Committee which was assigned the task of proposing candidates for appointment as specified in the application criterion 5.C 1 of the Code.

If, during the term of office, one or more Board members should leave office for whatever reason, they will be replaced according to the procedures established by law. If the leaving director was

taken from the minority list that had obtained the greatest number of votes, replacement will occur with appointment of the first eligible candidate taken from the same list as the leaving director and willing to accept office or, where this is not possible, with the appointment of the first eligible candidate who is willing to accept office, and taken, in serial order, from the list to which the first unappointed candidate belonged. The term of the replacement director shall expire together with the term of the directors in office at the time of the replacement Director's appointment to the Board.

Should it prove unfeasible to proceed as described above, as a result of a lack of a sufficient number of willing candidates, the Board of Directors shall proceed by co-opting, within the meaning of Article 2386 of the Italian Civil Code, a director selected by the Board itself in accordance with applicable statutory requirements; the Remuneration and Nomination Committee must express an opinion on the appropriateness of the candidate selected for co-option by the Board in exercise of its discretion. The director thus coopted shall remain in office through to the next Shareholders' Meeting that shall either confirm or replace him following the ordinary procedures and with ordinary majorities, in departure from the list-based voting system mentioned in Article 15 of the Articles of Association.

The Board of Directors is required to appoint a Secretary who need not necessarily be a Board member.

Amendments to the Articles of Association are regulated pursuant to applicable regulations.

With respect to criterion 5.C.2 of the Code, which makes reference to a discretionary assessment by the Board, the Board did not deem it appropriate to adopt a succession plan for executive directors at this time.

4.2 Composition of the Board of Directors (pursuant to Article 123-bis, paragraph 2, letter d), TUF)

The Shareholders' Meeting of 24 April 2012 established that the Board of Directors would be made up of ten members and appointed a new Board through the list voting system.

Following the resignations of two Directors in 2012 and subsequent co-option, the Shareholders' Meeting of 24 April 2013 resolved to maintain the number of Board members at 10 and appoint two Directors. Subsequently, 1 of the 2 Directors resigned and on 15 October 2013 the Board of Directors resolved to co-opt a Director in order to replace the outgoing member.

The term of the Board of Directors shall expire on the date of the Shareholders' Meeting called for the approval of the Financial Statements for the year ending 31 December 2014.

The Shareholders' Meeting of 24 April 2012 passed a resolution on the basis of the single list submitted by the majority shareholder Assicurazioni Generali S.p.A., which contained the follow-

ing names Girelli Giorgio Angelo, Motta Piermario, Perissinotto Giovanni, Anaclerio Mario Francesco, Baessato Paolo, Brugnoli Giovanni, Genovese Fabio, Gervasoni Anna, Miglietta Angelo and Riello Ettore. All candidates were elected by the affirmative vote of 99.642% of the shareholders present and entitled to vote at the Meeting.

Currently 8 of the Directors in office were taken from the only list submitted by the controlling shareholder Assicurazioni Generali S.p.A. at the shareholders' meeting for the renewal of the Board, while 1 member was later appointed by the Shareholders' Meeting of 24 April 2013 and 1 was co-opted by the Board of Directors following the resignations of 1 Directors appointed by the Shareholders' Meeting of 24 April 2013.

The table provided in Attachment 2 lists the members of the Board of Directors as of 31 December 2013, other information about them and Board and Committees meeting attendance.

All Company Directors are fully aware of the duties and responsibilities attaching to their office and actively participate in initiatives designed to help them deepen their knowledge and grasp of Company operations and dynamics, so as to enable them to make fully informed decisions.

In order to ensure that the Board of Directors includes persons capable of ensuring that the role assigned to them is discharged effectively, the Board of Directors, with the advisory support of the Remuneration and Nomination Committee, shall (i) define in advance the professional expertise required to achieve this result, (ii) define the qualitative and quantitative composition of company bodies (determining and justifying the theoretical profiles of candidates considered suitable, including as regards professional qualifications and independence). The results of the above analysis were submitted to the shareholders' attention in a timely manner so that the process of selecting and appointing candidates could take account of such indications. Moreover, upon the conclusion of the process of appointing company bodies, the Board of Directors (with the advisory support of the Remuneration and Nomination Committee) shall conduct a thorough, formal review that the actual result of the appointment process corresponds to the qualitative and quantitative composition deemed optimal.

With regard to the composition of the Board of Directors - given that Banca Generali is subjected to management and coordination by another Italian company whose stock is listed for trading on regulated markets - pursuant to Article 37, paragraph 1, letter d), of the Rules adopted by Consob with Resolution no. 16191 of 29 October 2007, as amended and extended, the Board of Directors is made up of a majority (7) of independent directors.

Pursuant to Article 36 of Law no. 214/2011, the Board of Directors, within the time limit set by law, have verified, in respect of each director, that there were no grounds of incompatibility for their appointment.

At the time of the next renewal of corporate bodies, the Issuer shall implement all measures to comply with applicable laws governing gender balance within governing and control bodies as set forth by Law no. 120 dated 12 July 2011, effective as of the first

renewal of corporate bodies subsequent to 12 August 2012. 	LISTED COMPANIES			FINANCIAL OR INSURANCE COMPANIES AND BANKING INSTITUTIONS			LARGE CORPORATIONS

The Board of Directors’ Rules also envisage that in determining the total number of companies in which appointees to the Company’s Board of Directors hold directorships or auditorships, no account may be taken of companies belonging to the Company’s Group, with the exception of corporations listed on regulated markets (including abroad), financial institutions, banks, insurance companies and large corporations. Appointments to the corporate organs of several companies belonging to a single corporate group, other than the Company’s Group, are, in practice, generally considered as a single appointment, with the exception of corporations listed on regulated markets (including abroad) and financial institutions, banks, insurance companies and large corporations (Article 5.4 of the Rules). The table in Attachment 2 also specifies the number of corporate positions each Director holds in the aforementioned companies on the basis of the criteria indicated in the Board of Director’s Rules.

In accordance with paragraph 2.C.2. of the Code which provides that the Chairman of the Board of Directors shall use his/her best efforts for causing the directors and the statutory auditors, after the election and during their mandate, to participate in initiatives aimed at providing them with an adequate knowledge of the business sector in which the Issuer runs its activity, of the corporate dynamics and the relevant evolutions, as well as the relevant regulatory framework, on 29 January 2013, all the Directors and Statutory Auditors participated in a Induction programme which analysed Banca Generali’s banking activities and the development of impacts related thereto. The meeting was specially convened to allow the members of the Bank’s governing bodies to take advantage of the insight provided by the Bank’s management in order to facilitate an adequate knowledge of the

sector in which the Company is engaged and the relevant dynamics.

4.3 Role of the Board of Directors (pursuant to Article 123-bis, paragraph 2, letter d)

The Board of Directors, made of the 10 members, plays a central role in the Company’s corporate governance system.

The Board of Directors, charged with strategic supervision, is vested with full powers of ordinary and extraordinary management of the Company. It has the authority to resolve on all matters pertaining to the corporate purpose that are not reserved to the exclusive competence of the Shareholders’ Meeting. The Board is also the only corporate organ empowered to pass resolutions also on the setting up or closure of secondary offices, and for appointing the Board members vested with powers of corporate representation and signature, as well as on mergers, in the cases permitted under law, on the amendment of the provisions of the Articles of Association that may be incompatible with new imperative regulatory requirements.

In accordance with paragraph 1.C.1., letters (a), (b) and (f) of the Code, Article 18 of the Articles of Association invests the Board with broad decision-making powers susceptible of significantly impacting the life of the Company and the Group, including, in particular, the power to define the general operating guidelines and approve the Company's strategic, industrial and financial plans, as well as transactions that could have a significant impact on the Company's equity or economic or financial position; the power to define the Company's general organisational layout, approve and amend internal rules and regulations, as well as set up advisory or coordinating committees or commissions.

In particular, pursuant to the Articles of Association, save in the emergency situations contemplated in Article 18, paragraph 9 of the same, the Board alone is vested with decision-making powers in respect of: a) establishing the general management policies, approving the Company's strategic, industrial and financial plans and the transactions of considerable economic, equity and financial importance; b) appointing, when it sees fit, a General Manager, Joint General Managers and Deputy General Managers, assigning their relative powers and deciding upon their retirement; c) appointing the Internal Auditor, after having heard the opinion of the Board of Statutory Auditors; d) appointing the Compliance Manager, after having heard the opinion of the Board of Statutory Auditors; e) upon hearing the Board of Statutory Auditors, the appointment and dismissal of the Manager responsible for preparing the company's financial reports, the determination of the powers and resources thereof, as well as the supervision of the tasks carried out by the same and monitoring of actual compliance with administrative and accounting procedures; f) authorising company representatives and representatives of companies belonging to the Banking Group fulfilling managerial, executive and supervisory roles to perform transactions or assume obligations of any kind with the Company or to carry out direct or indirect sales and purchases; g) purchasing or selling shareholdings that cause changes in the Banking Group or controlling or associative shareholdings; selling companies and/or company branches; entering into agreements pertaining to joint ventures or strategic alliances; h) approving the organisational structure and any and all amendments to internal rules and policies; carrying out specific checks to ensure that tasks and responsibilities are clearly and coherently defined within the organisational structure; i) carrying out periodic checks to ensure that the internal control structure is respectful of the principle of proportionality and complies with strategic guidelines, and that internal control functions are afforded a sufficient degree of independence within the organisational structure and are endowed with adequate resources to allow them to function properly; l) carrying out checks to ensure that the system of information flows is adequate, complete and timely; m) drawing up guidelines for the recruitment and internal placement of Company executives; n) creating committees or commissions with control, consultation, recommendatory or coordination functions, also for the purpose of ensuring that corporate governance complies with prevailing recommendations on the matter, establishing the components,

duration, powers and authority of said committees or commissions at the time they are set up; p) ongoing monitoring to ensure that the system of information flows amongst corporate organs is adequate, complete and timely; q) approving related party and connected party transactions, in accordance with the provisions set forth in the procedure adopted by the Company in compliance with applicable regulations governing such transactions. The Board of Directors may approve highly significant related party transactions, even in disregard of the contrary advice of the independent auditors, provided that the transactions in question are authorised by the Shareholders' Meeting, within the meaning of Article 2364, paragraph 1, subparagraph 5 of the Italian Civil Code, pursuant to a resolution passed with the majorities contemplated in applicable regulations, and in accordance with the procedure adopted by the Company with regard to related party transactions.

The Board of Directors of the bank, in its capacity as Parent Bank of the Banking Group, is also assigned exclusive competence over resolutions concerning the purchase and sale of shareholdings by subsidiaries belonging to the banking group, as well as the establishment of the criteria for coordinating and managing the banking group companies and for implementing the instructions issued by the Bank of Italy in the interest of group stability.

Finally, pursuant to the current regulatory framework governing companies providing investment services, the Board of Directors is also tasked with drawing up corporate policies, measures, processes and procedures aimed at containing risks and ensuring financial stability as well as sound and prudent management. The Board of Directors is consequently in charge of: (i) identifying the Company's risk levels, profile, goals and strategies, defining corporate policies as well as policies of the business risk-management system and periodically checking that the same are properly implemented and in line with the development of business operations; (ii) ensuring that the compensation and reward structure does not increase corporate risks and is in line with long-term strategies; (iii) defining and approving the general outline of the Internal Capital Adequacy Assessment Process, and ensuring that the same is adjusted, where necessary, by the deadlines imposed under prudential supervisory provisions for banks.

Moreover, the "Board Rules" provide, *inter alia*, that:

- i) pursuant to paragraph 1.C.1 (b) of the Code, the Board is bound to evaluate the appropriateness of the organisational, administrative and accounting layout of the Company and its strategic subsidiaries, in light of the information received from the competent corporate organs (Article 8.4 of the Board Rules). The Board periodically deliberates on the bank's organisational structure and assesses the functions aimed at guaranteeing the accurateness and efficiency of the bank's administrative and accounting system. It also defines the guidelines governing the organisational and administrative structures of the bank's subsidiaries;
- ii) pursuant to paragraph 1.C.1 (b) of the Code, the Board is bound to evaluate the appropriateness and effectiveness

- of the internal control and risk management system, taking due account of the Company's features and risk exposure. In such regard, the Board shall periodically check that the internal control system is in line with the principle of proportionality and the strategic guidelines, and that the corporate control functions are independent within the organisational structure and are endowed with adequate resources to allow them to function properly (Article 8.4 of the Board Rules); furthermore, the Board of Directors approves the policies and regulations governing the functioning of the control functions, approves regulations on the management of the main risks to which the Group is exposed and the policy on conflicts-of-interest of the banking group that establishes procedures for handling such conflicts;
- iii) the Board is bound to assess general management trends, with special emphasis on potential conflicts of interests and periodically comparing results against expectations, in accordance with the provisions of paragraph 1.C.1., letter e) of the Code (Article 8.3 of the Rules of the Board of Directors) The Board periodically assesses the Company's and the Group's operations, compares the results with budget forecasts and analyses any differences;
- iv) since the Company is also the Parent Company of the Banking Group, the Company's Board is further vested with decision-making powers in respect of the acquisition and disposal of participating interests, as well as the policies for the coordination and management of Group companies and compliance with Bank of Italy instructions, with a view to ensuring the stability of the Group. The Board approved Group Rules that establish guidelines for interaction and information flows among Group companies.

Article 18 of the Articles of Association further empowers the Board to delegate its powers, in accordance with paragraph 1.C.1. letter d) of the Code, subject to the obligation binding especially any and all such delegates, to report to the Board of Directors as well as the Board of Statutory Auditors, at least every quarter, in respect of the management trends and business activities of the Company and its subsidiaries, expected future developments, transactions susceptible of exerting a significant impact on the equity, economic and financial situation of Banca Generali and its subsidiaries, with specific reference to the transactions in which either the Company's Directors or third parties have an interest, or transactions influenced by the party exercising management and coordination powers over the Company, and decisions pertaining to lending policies.

Finally, in accordance with the Corporate Governance Code and surveillance regulations, the Board of Directors' Rules also establishes that the Board of Directors:

- prior to the appointment of each new Board of Directors, or in the event of the co-optation of directors, identify in advance the qualitative and quantitative composition of the Board deemed optimal by determining and justifying

the theoretical profile of candidates considered appropriate and submitting it for the shareholders' attention in a timely manner;

- after a new Board of Directors is appointed or directors co-opted, verify the correspondence between the qualitative and quantitative composition deemed optimal and the actual composition resulting from the appointment process;
- in order to ensure the proper management of company information, adopt, on the proposal of the Managing Director, a procedure for the internal management and external disclosure of documents and information pertaining to the Company, with special regard to insider information.

Functioning of the Board of Directors

Pursuant to Article 17 of the Articles of Association, Board meetings are to be held - in general - on a monthly basis.

As said, on 16 February 2007, in order to ensure that the Board's operating procedures comply with the principles entrenched in the Code and the supervising instructions issued by the Bank of Italy, the Board approved the Regulations of the Board of Directors, amended at the Board Meeting held on 21 February 2012.

The aforesaid Board Rules provide, *inter alia*, that:

- (i) pursuant to Article 1.C.2 of the Code, without prejudice to the causes for inelegibility and disqualification, as well as limits on simultaneous offices established in laws and regulations, appointments to Board may only be accepted after the appointees have determined that they are in a position to devote the time required to ensure the diligent performance of their tasks and duties as Board members, also in light of their professional activities, the number of directorships or auditorships they may hold within other corporations listed on regulated markets (including abroad) and in financial institutions, banks, insurance companies and large corporations, as well as their other professional activities (Article 5.2 of the Board Rules);
- (ii) the Chairman of the Board of Directors shall ensure that documentation pertaining to items of business on the agenda is brought to the attention of the directors and statutory auditors in advance of the date of the Board meeting (Article 4.2 of the Board Rules). Specifically, should the said items pertain to routine business, the related documents, if available, must generally be forwarded at least one day prior to the scheduled date of the Board meeting, save in the case where this is not possible for reasons of confidentiality, with specific reference to "price sensitive" information.
- (iii) even if management decisions have already been determined, guided or in any event influenced by a person or party exercising management and coordination powers in respect of the Company or by persons or parties acting pursuant to a shareholder agreement, each Board member shall be bound to exercise decision-making powers in total autonomy and

independence, making decisions that are reasonably likely to result - as a priority objective - in the creation of value for shareholders, in the medium-to-long term (Article 7 of the Board Rules);

- (iv) pursuant to paragraph 1.C.1, letter g) of the Code, with at least annual frequency, the Board of Directors shall express an opinion of the functioning of the Board of Directors and its committees, as well as their size and composition, also considering factors such as the professional characteristics, experience, including managerial experience, and nature of its members, as well as their length of service, and the adequacy and effectiveness of the provisions set forth in the Board of Directors' Rules (Article 10 thereof).

In compliance with the said provision, and the provisions of the Order issued by the Governor of the Bank of Italy on 4 March 2008, during the Board meeting held on 10 March 2014, the Board approved the "Self-assessment Report of the Board of Directors of Banca Generali S.p.A." (the "Self-assessment") drawn up taking due account of the outcome of the consultation forwarded by the Chairman of the Board of Directors to all Directors requesting the latter to express their opinions, on a voluntary basis, on a series of matters related to the composition and operations of the Board of Directors, as well as the composition and operations of the Board Committees, and expressed the following opinion:

"The Board of Directors of Banca Generali S.p.A.,

- with respect to size and composition of the Board of Directors:
 - a) as regards quantitative aspects:
 - having considered, first and foremost, the size of the administrative organ that seems commensurate with the dimensions and operations of the Company, and also in keeping with the Company's role as Parent Company of the banking group of the same name, insofar as it allows for adequate monitoring and management of all the Group's business operations in terms of managing and control requirements;
 - b) as regards qualitative aspects:
 - having considered, secondly, the membership of the same administrative organ, which, without prejudice to compliance with requirements provided for as per Article 26 of Consolidation Law on Banking, may be deemed appropriate with respect to both its technical competence arising from the inclusion of a wide variety of professional competencies featured on the Board of Directors, allowing for an authoritative and knowledgeable approach to the various matters that the Board of Directors is called upon to deal with from time to time, as well as to the prevalence of non-executive and independent Directors;

- with respect to the functioning of the Board of Directors and its Committees;
 - having considered the efficient and effective **functioning** of the administrative organ and its Committees which are regulated by specific Rules in addition, obviously, to applicable statutory and regulatory provisions;
 - having examined, as a panel body, the answers to the questionnaires that each Board member filled in, individually on a confidential basis;
 - bearing in mind the considerations set forth by the Independent Directors and Non-executive Directors; and
 - taking due account of best Corporate Governance practices implemented on the market;

pursuant to the provisions set forth by the Corporate Governance Code and the Order of the Governor of the Bank of Italy dated 4 March 2008 "Supervisory Provisions Concerning Banks' Organisation and Corporate Governance".

Expresses an overall clean opinion, with nothing to report on:

- (i) the size and functioning of the Board of Directors of Banca Generali S.p.A., as well as any and all delegated organs and/or Board committees set up;
- (ii) the ability of Board members to properly discharge their assigned tasks and functions, in terms of professionalism, time available, and where applicable, independence;
- (iii) the appropriateness and effectiveness of the provisions contained in the Rules of the Board of Directors."

The Board meetings are held periodically and, in general, once a month in compliance with the statutory requirements and pursuant to a schedule of works defined on an annual basis. In 2013, Banca Generali's Board met 13 times. The meetings lasted about 2 hours and 15 minutes on average. In the year underway a total of 12 Board meetings are scheduled; from the beginning of the year to the date of this Report, three have been held.

The attached table sub 2 provides information on the attendance of Directors at the Board meetings held in 2013. Absentee Directors provided justification for non-attendance.

In accordance with the Board Rules and to encourage the development of mechanisms for the flow of information amongst and within company bodies aimed at achieving management efficiency and control effectiveness, the information flows towards and within company bodies are regulated by a specific internal company Circular, approved by the Board of Directors. The aforesaid Circular lays down the timetable, procedures and contents of the information to be provided to the company bodies in question, and identifies the persons and parties bound to submit appropriately exhaustive reports on a periodic basis and/or upon request. The formal rules governing the structure of information flows (in particular towards the Board of Directors and Board of Statutory Auditors) officially establish the consolidated reports already in use at the bank, which are typically systematic and well organised in terms of form and con-

tent. These reports satisfy the necessity of providing a timely flow of information to the Board with regard to the exercise of powers delegated. They are revised on an ongoing basis as necessitated by legislation or operations. The preferred method for ensuring a flow of information towards Directors and Statutory Auditors is by making written documents available in a timely manner, especially reports, explanatory notes, memoranda, presentations, reports prepared by the bank's organisational units, other public and non-public documentation and accounting documentation intended for publication. The information reported through the procedures set forth above shall be supplemented (and where necessary for reasons of confidentiality, replaced) by oral explanations provided to the Chairman, the Chief Executive Officer or members of the Bank top management, either at Board meetings or at informal gatherings open to Board members and members of the Board of Statutory Auditors, organised for the specific purpose of allowing the latter to discuss and acquire deeper insight into issues of interest in terms of the Bank's operations. Apart from matters over which the Bank's Board of Directors is vested with exclusive powers of decision and approval pursuant to law and the Articles of Association, reports to the members of the Board of Directors and the Board of Statutory Directors, shall focus primarily on: (i) general business performance and foreseeable developments, with an indication of departures from previous forecasts; (ii) activities undertaken, with specific reference to transactions that could have a particularly significant impact on the company's balance sheet, income statement and/or cash flow, related and connected party transactions, and atypical, unusual or innovative transactions, and the risks associated with each of the above; (iii) the internal control system and the level of Bank's exposure to all significant types of risk; (iv) the performance of the products placed and the relevant returns; (v) the performance of lending activities; (vi) the performance of the bank's investing activities; (vii) any and all other activities, transactions or events deemed worthy of the attention of the Board of Directors and the Board of Statutory Auditors. As an additional contribution to the promotion of methods for circulating information among the Corporate Bodies with the aim of achieving management efficiency and control effectiveness, at its first meeting of 2013, the Board adopted a computer application called e-Boards, whose objective is the secure distribution of digital documents to the members of Banca Generali Board of Directors and Committees, through iPad and PC platform. The application general features enable the exchange of documents without e-mails and printing on paper, while ensuring maximum security and confidentiality of the documents on the Board's agenda. In fact, (i) all communications to and from devices are encrypted, (ii) the authentication process involves the use of a numeric code as Personal Identification Number (PIN), (iii) all documents on the devices (iPad and/or PC) are encrypted and (iv) the documents cannot be retrieved and consulted without the application and the security key (in case the device is lost or stolen).

In addition to the activities dealt with in the various chapters of this Report, in discharging its tasks pursuant to the Articles of Association and the supervisory regulations governing banking in Italy, the Board of Directors, also:

- a) periodically passed resolutions pertaining to the Company's organisational layout, with specific emphasis on corporate functions involved in providing services to the entire banking group headed by the Company;
- b) in its meetings of 28 March 2013 and 24 April 2013, with a view to ongoing development and within the gradual implementation of the new organisational structure (started in July 2012) of the first business lines reporting to the General Manager, passed resolutions concerning:
 - (i) the institution, within the General Management and in support of the General Manager, of a General Management Department, aimed at ensuring strong supervision of core banking and distribution activities. In addition to being responsible for supervising banking group companies, the General Management Department coordinates two organisational areas:
 - A) the CFO Area, reorganised with the aim of including the functions characteristic of the CFO's responsibilities, of which the following main organisational units are a part:
 - Planning and Control Department
 - Administrative Department
 - Finance Department
 - Sales Planning and Control Service
 - Investor Relations Service;
 - B) the Bank Area, which brings together the typical banking functions (including loans and corporate), as well as functions highly synergistic with the institution's core governance activity for organisational processes and IT coordination, of which the following organisational units are a part:
 - Operating Department
 - Loans Department
 - Information Systems Organisation and Coordination Department
 - Corporate Department (to be instituted - intended to ensure coordination of captive banking activities relating to Generali Group companies, their agents and employees);
 - (ii) the institution, within the General Management and in support of the General Manager, of a general management department responsible for overseeing distribution networks, of which the following are a part:
 - Private Division (including Relationship Managers and Private Bankers networks);
 - Financial Planners Divisions (including the Financial Planners network);
 - Marketing Department
 - (iii) the institution of the Governance and Company Risks Area, reporting directly to the Chief Executive Officer,

with the aim of establishing a single, integrated point of control for all company risks (including risk management), as well as transactions relating to governance of the Bank, to which the following organisational units report:

- Company Risk Department, specifically established, to which the following are answerable:
 - Risk Management Service
 - Compliance Service
 - Anti-Money Laundering (AML) Compliance Unit
 - Rules and Procedures Service
 - Legal Service
 - Corporate Secretariat Service
 - Financial Activities Support Service;
- (iv) the institution of the strategic planning function, reporting directly to the Chief Executive Officer, who will also continue to coordinate the strategic analysis function;
- c) examined general business trends, on a quarterly basis, especially in light of information received from the Chief Executive Officer, as well as carried out quarterly comparisons of results achieved against expectations and forecasts;
- d) determined, as proposed by the Remuneration and Nomination Committee and after hearing the opinion of the Board of Statutory Auditors, the compensation of the Chief Executive Officer, General Manager, Directors serving on Board Committees and other professional figures who can influence the risk profile of the Bank, as well as those responsible for control functions.

The meetings of the Board of Directors may be held by telephone or video conference and, where the Chairman sees fit to do so, including upon the request of one or more directors, the executives of the Company and those of companies belonging to the Group controlled by the Company who are in charge of company functions competent with respect to the subject matter concerned may participate in meetings of the Board of Directors in order to provide the appropriate further clarification regarding items of business on the agenda.

With regard to Banca Generali subsidiaries, in order to ensure that effective and efficient management and control systems are in place also at consolidated level, all the companies of the banking group are currently closely integrated with the Parent Company.

This integration is especially evident in:

- i) the ownership structure: the share capital of the subsidiaries is wholly owned by Banca Generali S.p.A. (with the exception of Generali Fund Management S.A., in which Banca Generali currently holds a 51% interest, which is to increase to 100% upon the completion of the authorized de-merger of a part of the subsidiary's assets with transfer to a newly incorporated Luxembourg company that is to operate under the control of Generali Investments S.p.A.);
- ii) the composition of the governing and control bodies of the

subsidiaries, whose members include various officers of the Parent Company with a view to ensuring that the latter's guidelines are effectively and efficiently imparted so as to allow for sound business administration without jeopardising the decisional autonomy of subsidiaries in any way, whilst also providing for a uniform level of care, caution and concern in assessing risk-containment mechanisms and the system of checks and balances. Joint meetings of the Boards of Statutory Auditors of Italian group companies are periodically held so as to keep risks in check.

- iii) the organisational, administrative and accounting layout, as well as the control system devised for the subsidiaries, featuring the centralisation of certain key functions within the Parent Company.

As the Parent Company vested with the powers of management and coordination specified in the Italian Civil Code, and developed in greater detail in Articles 59 et seq. of Legislative Decree no. 385/1993 and Title I, Chapter of Bank of Italy Circular no. 229 of 21 April 1999, Banca Generali discharges, in respect of the subsidiaries belonging to the Banking Group, the management and coordination functions related to the administration of the Group as a whole, determining and imparting instructions on how best the common business purpose is to be pursued by all the individual operating units comprising the Group, whilst ensuring the autonomy of each of the companies belonging to the Banking Group. Given that, under the sector-specific regulations in question, the Parent Company is to serve as the point of reference for the Bank of Italy with regard to all supervisory issues at Group level, appropriate organisational structures have been set up to ensure the implementation of and monitor ongoing compliance with Bank of Italy instructions and provisions within all Group companies.

The Board of Directors has delegated executive powers to the Chief Executive Officer, Piermario Motta. By virtue of the powers assigned to him, Piermario Motta is the Chief Executive Officer. He does not hold director's positions in any other listed Issuer.

Chairman of the Board of Directors

The Chairman of the Board of Directors was appointed by the Board on 24 April 2013.

The Bank of Italy Order of 4 March 2008 highlights the importance of the role of the Chairman of the Board of Directors who is in charge of promoting internal debate, ensuring the balance of powers, including with regard to the Chief Executive Officer and the other executive directors, as well as discharging coordination and supervisory functions with a view to ensuring not only the smooth functioning of the Board of Directors and the Shareholders' Meeting, but also facilitate the proper flow of information.

According to the Bank of Italy, in order to effectively discharge this key function, the Chairman must play a non-executive role and must be free from operating responsibilities.

In compliance with the aforesaid requirements of the Bank of Italy, the Regulations of the Board of Directors specifically govern the procedures through which the Chairman is to discharge his coordination and oversight functions aimed at ensuring the smooth functioning of the Board of Directors and the constant flow of information amongst Board members.

Therefore, in addition to the powers vested by law and the Articles of Association, on 24 April 2013 the Board has vested its Chairman, Paolo Vagnone, with powers to coordinate the activities of the Company's corporate organs, oversee the implementation of the resolutions approved by the Shareholders' Meeting and the Board, ensure the prompt and proper execution of the decisions made by the Chief Executive Officer, monitor business operations and compliance with strategic policy guidelines, as explained below.

1. monitoring general business operations and laying down management policies in concert with the Chief Executive Officer;
2. establishing, in concert with the CEO, general guidelines for dealing with corporate affairs;

3. coordinating the smooth functioning of the Board of Directors and the General Shareholders' Meeting, by promoting internal dialogue and ensuring the balance of powers and circulation of information;
4. overseeing relations with public bodies, shareholders and managing the Company's public relations in general;
5. coordinating the Company's communication strategies, managing the company's public image and relations with the press or other media, in accordance with the guidelines provided by the Board of Directors and in line with the company's strategic plan and the Group policies on this matter.

Moreover, under Article 18, paragraph 9 of the Articles of Association, the Chairman of the Board is vested with exceptional emergency decision-making powers pertaining to all matters falling outside the scope of the powers delegated to the Chief Executive Officer and not reserved to the sole and exclusive competence of the Board as a whole, under imperative statutory provisions. The Board will be informed of such decisions at the next Board meeting.

Pursuant to Article 22 of the Articles of Association, powers of representation and signature before the Courts, public authorities and third parties, are vested in the Chairman of the Board of Directors.

Report to the Board

The Chief Executive Officer reports periodically to the Board of Directors with regard to activities carried out. Specifically:

 - (ii) on the need to update risk allocations or provisions.

4.5 Other Executive Directors

Another Board member was found to qualify as an Executive Director, as a result of his top management position with the Parent Company which also concerns the Bank, namely, Philippe Donnet, Country Manager for Generali Group Country Italy, which comprises the Banca Generali.

4.6 Independent and Non-executive Directors

Considering that Banca Generali is subject to management and coordination by another Italian company with shares listed in regulated markets, the Board of Directors consists of a majority of independent directors, pursuant to the provisions of Article 37, paragraph 1, letter d), of the Regulation adopted by Consob in resolution no. 16191 of 29 October 2007, as amended.

Independent Directors are tasked with independently overseeing corporate management, and contributing towards ensuring that the company is administered in the interest of its shareholders and in accordance with the principles of good corporate governance (Article 12.6 of the Board Rules).

Moreover, Article 12.5 of the Board Rules requires the Board to be made up primarily of non-executive directors.

In accordance with the provisions of paragraph 2.C.1 of the Code, for the intents and purposes of the Board Rules, executive directors are defined to include:

- i) the Chief Executive Officers and Chairmen of the Company or a strategic subsidiary thereof, in the case where the same are personally vested with delegated powers or play a specific role in shaping corporate policy and strategy;
- ii) Directors who also serve as executives within the Company or within a strategic subsidiary thereof, or even within the Parent Company, in the case where the position also involves Banca Generali;

Within the meaning of the definitions set forth above, the Company's Board at 31 December 2013 was made up of two executive and eight non-executive directors. The said situation still prevails to date.

In compliance with the recommendations set forth in the Code, the number and acknowledged expertise of the Company's non-executive Directors lend their opinions decisive weight in the Board's decision-making process.

Non-executive Directors help ensure that Board resolutions are always in keeping with the interests of the Company. By contributing their specialist know-how, non-executive Directors help ensure that Board members are in a position to make informed decisions reached after due reflection. The Board Rules require that non-executive Directors meet at least once a year without the other Directors.

In compliance with this requirement, Banca Generali's Independent Directors met separately on 14 February 2014, to discuss the following matters:

1. Methods for discharging the tasks entrusted to Non-executive Directors;
2. Information flows from Executive Directors;
3. Discussion on the text published for consultation by the Bank of Italy in December 2013 "Supervisory Provisions Concerning Banks' Organisation and Corporate Governance".

The Company's Board of Directors includes seven non-executive Directors, who are independent for the meaning and provisions set forth in Article 37, paragraph 1 (d), of the Regulation adopted by Consob in Resolution no. 16191 of 29 October 2007, which provides that no person who sits on the Board of Directors of a company or body engaging in management and coordination activities in respect of the Company or on the Board of Directors of any listed entity controlled by such company or body, may be considered an independent director of the Company. It also includes six non-executive Directors, who are independent in accordance with the Corporate Governance Code (paragraph 3.C.1), as issued by Consob in Notice no. DEM/10078683 of 24 September 2010, which provides that the independence requirements set forth by the said Code may be considered equivalent to the standards contemplated in Article 148, paragraph 3, of Legislative Decree no. 58/1998 and reflected in Article 13 of the Board Rules, pursuant to which, a Director may not, as a general rule, be considered independent in the following cases (although the same are not to be deemed imperatively applicable):

- a) directly or indirectly, including through subsidiaries, trust companies and third party intermediaries, controls the Company or is in a position as to exert a significant influence over the same, or is party to a shareholder agreement under which one or more parties are afforded control of or a significant influence over the Company;
- b) is, or has been in the preceding three financial years, a key executive of the Company or a strategic subsidiary thereof, or a company subjected to common control with the Company, or a company or body that, even together with others on the basis of a shareholder agreement, controls the Company or is in a position as to exert a significant influence over the same;
- c) directly or indirectly (for instance through subsidiaries or companies in which he serves as a key executive, or professional partnerships or consultancy firms in which he is a partner), maintains or has maintained significant com-

- mercial, financial or professional relationships with: (i) the Company, or one of its subsidiaries or one of its key executives; (ii) a person or party that, including together with others on the basis of a shareholder agreement, controls the company, or - in the case where the said party is a body corporate or legal entity - with the key executives thereof; or is or has been an employee of the aforesaid persons or parties, during the current or previous three financial years;
- d) currently receives or has received in the previous three financial years, from the Company or a subsidiary or corporate parent thereof, significant compensation in addition to the “fixed” emoluments due to Non-executive Directors of the Company, including as part of stock option or other plans linked to corporate performance;
 - e) has been a Director of the Company for more than nine years during the past twelve years;
 - f) is an Executive Director in another company in which an Executive Director of the Company also holds a directorship;
 - g) is a shareholder or Director of a company or entity belonging to the network of the company or firm appointed as the Company’s Independent Auditors;
 - h) is a close family member of a person in one of the situations described above.

For the intents and purposes of the above, the “key executives” of a corporation or entity shall include: the Chairman of the entity, or the Chairman of its Board of Directors, as well as the entity’s legal representatives, executive directors, managers and executives with strategic responsibilities.

The Board Rules (Article 14), pursuant to the Code (paragraph 3.C.6), require the Company’s Independent Directors to meet at least once a year, without the presence of other Directors.

In compliance with the said requirement, Banca Generali’s Independent Directors met separately on 23 January 2014, to discuss the following matters:

1. appropriateness of the number of Independent Directors;
2. contribution of independent Directors to the Board’s meetings.

In light of Article 3.C.4 of the Code, the Board Rules require the Board to examine, at the time of the appointment of any independent directors and, in accordance with the policies and procedures set forth in the same Board Rules, any and all the information and declarations submitted by appointee independent directors, or otherwise acquired by the Board, with a view to ensuring that the requirements for independence have been fully met, and to further check, on a yearly basis, that the said independent directors continue to qualify as such.

The Board Rules also require the Chairman to ensure that the Board of Statutory Auditors is placed in a position to indepen-

dently verify the outcome of the aforesaid checks, as recommended in Article 3.C.5 of the Code.

In compliance with the said provisions, at the time of appointment, the Board of Directors checked that each of the directors who had declared themselves independent, in fact, fully met all the statutory requirements of independence. Moreover, on 14 February 2014, following its scheduled annual assessment of satisfaction of the requirements of independence, the Board of Directors, acting as a panel, found that the Directors Mario Francesco Anaclerio, Paolo Baessato, Giovanni Brugnoli, Fabio Genovese, Anna Gervasoni and Ettore Riello, qualified as independent directors within the meaning of Articles 147-ter, paragraph 4, and 148, paragraph 3, of Legislative Decree no. 58/1998, and Directors Mario Francesco Anaclerio, Paolo Baessato, Giovanni Brugnoli, Fabio Genovese, Anna Gervasoni, Angelo Miglietta and Ettore Riello are independent directors within the meaning of the requirements set forth the Application Criteria of Article 3 of the Code, and pursuant to Article 37, paragraph 1, subparagraph (d) of Regulation no. 16191 adopted by Consob on 29 October 2007, as further amended and extended. The Board of Directors announced the outcome of its assessments by issuing a press release.

On 14 February 2014, the Board of Statutory Auditors, after examining the documentation provided, confirmed the results of the checks performed by the Board and determined that the criteria and procedures used to evaluate the independence of the independent Directors had been correctly applied.

4.7 Lead Independent Director

The Company has not appointed a lead independent director within the meaning of Article 2.C.3 of the Corporate Governance Code. This choice is considered appropriate to the Company as the Chairman of the Board of Directors, Paolo Vagnone, is Head of Global Business Lines of the Company’s Parent, Assicurazioni Generali S.p.A.

This is because the Company feels that Mr. Vagnone’s role within Assicurazioni Generali S.p.A. does not entail potential conflict of interests or unchecked concentration of corporate decision-making powers. As a matter of fact, within Banca Generali, Mr. Vagnone is devoid of any responsibility whatsoever in respect of business operations and corporate management, and is tasked only with overseeing and monitoring the implementation, by the Board of Directors, of the resolutions passed by the Shareholders’ Meeting, and compliance by delegated corporate officers and organs with the provisions of Board resolutions.

Mr. Vagnone, therefore, serves as an observer, monitor and supervisor tasked primarily with ensuring that Company Management scrupulously complies with strategic corporate guidelines and policy.

5. HANDLING OF CORPORATE INFORMATION

Members of the Board of Directors and the Board of Statutory Auditors shall handle with the utmost confidentiality any and all documents and information of which they may become aware in the discharge of their duties, and shall strictly comply with Company procedures for the internal handling and outside disclosure of the said documents and information.

Pursuant to the above, and to Articles 114 and 115-bis of TUF, and Articles 65-duodecies et seq. and 152-bis et seq. of Consob Regulation (the "Rules on Issuers"), on 18 July 2006, the Board of Directors, upon request of the Chief Executive Officer, approved the rules of conduct to be followed in the management and public disclosure of inside information (the "Code on Inside Information"), last amended with Board of Directors' resolution dated 24 April 2013.

A copy of the Code on Inside Information is available on the website www.bancagenerali.com, section *Corporate Governance - Corporate Governance System - Company Regulations*.

The Code on Inside Information is aimed at regulating the obligations of persons who, by virtue of the exercise of their employment or profession or by virtue of their official functions, have access on a regular or an occasional basis to inside information pertaining to Banca Generali and/or its subsidiaries. More specifically, the Code on Inside Information sets forth specific provisions for the handling of corporate information, with a view to: (i) preventing the abuse of information and market manipulation; (ii) regulating the handling and processing of inside information, as well as (iii) establishing the disclosure, both within the company and to the public, of documents and information pertaining to the Company and/or its subsidiaries, with specific reference to inside information. The Code on Inside Information is also designed: (i) to ensure the timely, complete and adequate processing of inside information, with a view to avoiding asymmetrical information; and (ii) to protecting the market and investors through adequate disclosure of the events involving the Company, with a view to enabling investors to make informed investment decisions.

The essential elements of the Code on Inside Information are summarised below.

Inside Information means information of a precise nature which has not been made public relating, directly or indirectly, to the Company or its subsidiaries and which, if it were made public, would be likely to have a significant effect on the prices of the financial instruments issued by the Company.

The procedures set forth in the Code on Inside Information must be followed by the members of the Board of Directors and the Board of Statutory Auditors, and the employees of the Company and its subsidiaries as well as any and all insiders, and that is to say, persons who, by virtue of the exercise of their employment or profession or by virtue of their official functions, have access on a regular or an occasional basis to inside information pertaining to Banca Generali and/or its subsidiaries (the "Insiders").

In handling the confidential information of which they may become aware in the course of their duties, company executives and insiders are bound to exercise the utmost confidentiality and implement any and all suitable precautions so as to allow the said information to be circulated within the Company and amongst subsidiaries without any breach of the confidentiality thereof.

The aforesaid persons are barred from issuing interviews to the press and media, or in general, any declarations containing Inside Information not included in documents already disclosed to the public.

Any and all relationships with financial analysts and institutional investors entailing the disclosure of Inside Information must take place solely through the Investor Relations department, following authorisation from the Chief Executive Officer, whose responsibilities include the procedures for managing Inside Information pertaining to the Company and its subsidiaries, relations between the Company and institutional investors as well as press relations, availing for such purpose of the support and assistance of the Public Relations department.

The Board of Directors has assigned the Investor Relator the task of preparing the press release drafts concerning inside information on the Company or its Subsidiaries, and to the External Relations Manager the task of liaising with the media. The Company Secretariat Service is responsible for fulfilling market disclosure obligations and issuing the press releases pertaining to inside information approved by the Company CEO, in the manner provided for by the Rules for Issuers, the Market Rules of Borsa Italiana and the Instructions accompanying the Market Rules, as well as the Code on Inside Information, regarding the issuing of press releases disclosing Inside Information, approved by the Company's CEO.

Only persons specifically authorised for such purpose by the Chairman of the Board of Directors of Banca Generali (or in the case of the absence or unavailability thereof, the Chief Executive Director) may meet with market operators in Italy and abroad.

The Company has also set up the Register of Insiders, within the meaning of Article 115-bis of TUF, establishing procedures for the maintenance of the said Register and appointing the Head of Governance and Company Risks Area to maintain and update the same.

Internal Dealing

In accordance with the provisions of Article 114, paragraph 7 of the Consolidation Law on Financial Intermediation, as well as Articles 152-sexies et seq. of the Rules on Issuers, on 18 July 2006, the Board of Directors also approved a code of conduct in respect of internal dealing (the "Code on Internal Dealing") which was last amended by Board resolution of 18 December 2012, aimed at bringing it in line with the amendments intro-

duced to the Rules for Issuers regarding internal dealing by Consob Resolutions no. 16850 of 1 April 2009 and no. 18079 of 20 January 2012.

The said Internal Dealing Code defines “Relevant Persons” (which include, in particular, the members of the Board of Directors and the Board of Statutory Auditors of the Issuer, persons performing managerial responsibilities within the Company as well as the independent auditors), and persons closely associated therewith, who are bound to give notice to the Company, Consob and the public of any and all Significant Transactions involving shares issued by the Issuer or other financial instruments thereto related, that they may effect, including through third party intermediaries.

The Internal Dealing Code identifies as significant transactions any and all purchases, sales, subscriptions, exchanges or barter of Banca Generali shares or financial instruments linked to shares, effected, including through third party intermediaries, by Relevant Persons and Persons closely associated with Relevant Persons.

The following transactions shall not however be deemed to be Significant Transactions:

- (i) transactions that collectively do not exceed 5,000.00 (five thousand/00) euros in a solar year, where such significance threshold is calculated by taking account of all transactions involving the Shares and Financial Instruments linked to the Shares carried out on behalf of each Relevant Person and those carried out by Persons closely associated with Relevant Persons during the 12 months prior to the date of the last transaction undertaken, without prejudice to the fact that each subsequent transactions need not be subject to further notice unless they exceed an additional 5,000 euros by year-end;
- (ii) transactions effected free of charge, such as gifts and legacies, and the assignment free of charge of shares and subscription rights as well as the exercise of any and all such rights deriving from stock option plans, it being understood that, in all the cases contemplated in this point, any subsequent re-sale must be deemed to fall within the scope of the Code;
- (iii) transactions effected between Relevant Persons and Persons closely associated with Relevant Persons;
- (iv) transactions effected by the Company and its subsidiaries;
- (v) transactions effected by a lending institution and an investment company, provided that they are part of the creation of a trading portfolio of such institution or company, as defined by Article 11 of Directive 2006/49/EC, as amended and extended by Directive 2013/36/UE, and provided that the same party: (i) keeps its trading and

market-making units separate from its treasury and units responsible for managing strategic equity investments from an organisational standpoint; (ii) is able to identify the shares held for the purposes of trading and/or market-making activity, in a manner that may be subject to review by Consob, i.e., by holding such shares in a specific separate account; and, where it operates as market maker, (iii) is authorised by its home Member State pursuant to Directive 2004/39/EC to conduct market-making activity; (iv) provides Consob the market-making agreements with the market management company and/or the Issuer as required by the law and associated implementing provisions in force in the EU Member State in which the market maker conducts its activity; and (v) notifies Consob that it intends to conduct or conducts market-making activity on the shares of an Issuer of listed shares using form TR-2 contained in Annex 4C; the market-maker shall also notify Consob without delay of the cessation of market making activity on those same shares.

The Internal Dealing Code also contains rules governing the management, handling and disclosure of information pertaining to the said transactions.

Pursuant to the Internal Dealing Code, no Significant Transactions (as defined in the Code) may be effected during the 30 days immediately preceding the scheduled dates of any and all Board meetings called (i) to examine the draft separate and consolidated financial statements or the condensed half-year reports; and (ii) to formulate the proposal for the distribution of dividends, and within the 15 days immediately preceding the scheduled dates of the Board meetings called to examine the quarterly reports as at 31 March and 30 September of each year. Such limitations shall not apply to the exercise of any stock options or option rights and, as limited to Shares deriving from stock option plans, the ensuing disposal transactions, provided they are undertaken concurrently with exercise. In addition, the limitations shall not apply in the case of exceptional situations of subjective necessity, for which the interested party provides adequate justification to the Company.

The aforesaid Code, furthermore, empowers the Board of Directors to further prohibit or restrict purchases, sales, exchanges or other transactions entailing a transfer of title in shares issued by the Company or in financial instruments linked to the said shares, by the said relevant persons, including through third party intermediaries, during specific periods of the year and/or on occasions marking specific events in the Issuer’s corporate life.

The Board of Directors has appointed the Head of Governance and Company Risks Area to implement the provisions of the Code.

6. INTERNAL COMMITTEES OF THE BOARD OF DIRECTORS (pursuant to article 123-bis, paragraph 2, letter d) of TUF)

The Code sets forth a recommendation for listed companies to set up certain Committees within their Boards of Directors, to be assigned responsibility for certain specific matters.

The roles of these Committees, set up for the purposes of improving the functioning of the Board, are primarily consultative and recommendatory.

In particular, the Code recommends the setting up of an Internal Audit and Risk Committee, a Remuneration Committee and a Nomination Committee. Similarly, the supervisory instructions

issued by the Bank of Italy, and particularly its “Supervisory Provisions Concerning Banks’ Organisation and Corporate Governance” and “Instructions on the remuneration and incentive policies and practices of banks and banking groups”, call for the setting up of Committees within the Board of Directors.

In accordance with the above, the Board of Directors set up both the Internal Audit and Risk Committee and the Remuneration and Nomination Committee, requiring the same to be made up entirely of Non-executive directors and independent Directors.

7. REMUNERATION AND NOMINATION COMMITTEE

In accordance with point 5.P.1. of the Corporate Governance Code and pursuant to “Instructions on the remuneration and incentive policies and practices of banks and banking groups” issued by the Bank of Italy on 30 March 2011, it should be noted that on 24 April 2012 the Board of Directors convened upon the setting up of the Nomination and Remuneration Committee, vesting it with the tasks set forth in the said Code and the supervisory instructions, as described in detail here below.

The decision to assign the functions of the Remuneration Committee and the Nomination Committee to a single Committee was justified by the contiguity of the matters dealt with and taking into account the overall size of the Bank’s Board.

The Remuneration and Nomination Committee is tasked with assisting the Board of Directors in laying down Company policies in respect of the remuneration of the Company’s directors, officers and top management and submitting nomination recommendations for the post of Director.

The current Remuneration and Nomination Committee was appointed by the Board of Directors on 24 April 2012, and is made up as follows:

NAME AND SURNAME	POSITION (AS OF 8 MARCH 2013)

23. formulating opinions on resolutions regarding the maximum number of management or control offices that can be held by the Directors in companies listed on regulated markets or in large companies not being part of the Group, subject to the regulations in force from time to time in respect of holding or exercising positions in companies or groups that compete in the banking, insurance and financial services markets.

The procedures governing the functioning of the Remuneration and Nomination Committee are set forth in the Remuneration and Nomination Committee Rules approved by the Board of Directors on 27 November 2006 and last amended by the Board of Directors on 24 April 2012.

Committee meetings are generally held at least once a year and, in any event, with the timeliness necessary to allow for a full treatment and discussion of any and all matters on which the Committee may be requested or required to report to the Board of Directors.

Apart from Committee members, the Chairman of the Board of Auditors and the other Auditors shall attend Committee meetings. The Chief Executive Officer can be invited to participate in meetings of the Committee, save during the discussion of matters regarding him.

Upon invitation, non-members may also attend Committee meetings so as to provide assistance with regard to specific items placed on the agenda.

Directors do not take part in Committee meetings at which recommendations in respect of their own remuneration are drawn up for submission to the Board of Directors.

Internal Audit and Risk Committee members are appointed for a period that is coterminous with the term of the Board, and are entitled to annual remuneration plus an attendance fee payable for each meeting they attend.

In 2013 the Remuneration and Nomination Committee met nine times. The meetings lasted about 1 hour and 30 minutes on av-

8. DIRECTORS' REMUNERATION

In accordance with Article 6.P.3 of the Corporate Governance Code and pursuant to "Instructions on the remuneration and incentive policies and practices of banks and banking groups" issued by the Bank of Italy on 30 March 2011, the Board of Directors set up the Remuneration and Nomination Committee tasked with, *inter alia*, making recommendations to the Board in respect of the remuneration packages of Chief Executive Officers and other Board members entrusted with specific tasks (see "Remuneration and Nomination Committee").

With regard to remuneration, the Company is subject to Provision no. 264010 of 4 March 2008 of the Bank of Italy. With such provision, the Supervisory Body also requires banking sector operators to adopt and implement compensation mechanisms that are in line with risk-management policies and long-term strategies. Towards such end, under the regulations, in addition to establishing the remuneration due to the members of the corporate organs it appoints, the Ordinary Shareholders' Meeting must also approve the compensation policies applicable to directors, and employees, as well as outside consultants and collaborators other than employees.

With subsequent Provision of 30 March 2011, the Bank of Italy transposed Directive 2010/76/CE (so called CRD 3), issuing the "provisions governing the remuneration and incentive policies of banks and banking groups" (hereinafter also "Supervisory provisions"). The so-called CRD 3 Directive sets forth specific principles and requirements that banks must comply with so as to ensure that: remuneration systems are properly designed and implemented; potential conflicts of interest are effectively managed; the remuneration system takes due account of current and prospective risks, the degree of capitalisation, as well as liquidity levels of each intermediary; transparency towards the market is maximised; and oversight by regulatory authorities is reinforced. The proposed Italian text is aimed at promoting - in the interest of all stakeholders - the implementation of remuneration systems that are in line with long-term corporate objectives and strategies, linked to corporate performance but appropriately corrected to reflect all risks, commensurate with the capital and liquidity levels required to cover ongoing business operations, and in any event, designed to avoid distorted incentives that could lead to regulatory violations and excessive risk-taking by individual banks and within the whole system.

The above-mentioned regulation also envisages that:

- (i) in addition to establishing the remuneration of the members of the corporate organs, the Ordinary Shareholders' Meeting shall also approve the remuneration policies applicable to bodies and functions of oversight, management and control, as well as to personnel;
- (ii) the Shareholders' Meeting itself shall be provided information on the procedures through which remuneration policies were applied and implemented (so-called "information after the fact").

This Provision is now subject to amendment (the consultation phase ended on 12 January 2014 and publication of the Provision is currently pending) with the aim of incorporating the provisions of Directive 2013/36/EU ("CRD IV"). The main changes introduced by the Directive pertain to:

- the introduction of a maximum limit of 1:1 for the ratio of the variable to the fixed component of remuneration: the rule is aimed at avoiding extremely high, unbalanced variable compensation with respect to the fixed component that might foster the excessive assumption of risks and might not be consistent with sound, prudent remuneration and incentive policies and practices;
- the attribution to the general meeting of the shareholders, at each member state's discretion, of the power to approve a higher limit for the ratio set out in point 1), in accordance with the conditions, and within the limits, defined in the Directive;
- reinforcement of the provisions governing ex-post adjustment mechanisms for risks (malus and claw-back): in addition to the currently envisaged quantitative indicators, tied to the achievement of results, qualitative indicators were added, tied to the conduct by personnel in the course of the service to the bank. Such aspects may also represent an important mechanism for ensuring sound, prudent management and should guide the payment of remuneration;
- the establishment of limits on variable remuneration where banks fail to observe specific capital requirements: the provision represents an aspect of a general principle of the rules on compensation, which regards financial solidity as an indispensable condition for the payment of incentives;
- the attribution to the EBA of the power to set regulatory technical standards (RTSs) for: (i) the qualitative and quantitative criteria for identifying the most relevant staff; and (ii) the characteristics of the financial instruments to be used for the payment of variable remuneration. Once approved by the European Commission on the basis of the proposal formulated by EBA, the RTSs are binding in nature and are directly applicable without the need for transposition. Accordingly, the provisions are amended, in the points governed by RTSs, with an express reference thereto;
- the revision of the other rules already contained in CRD 3: these include, for example, clarification concerning the possibility of paying guaranteed variable compensation and the updating of public disclosure obligations.

Moreover, Legislative Decree no. 259 of 30 December 2010 included in the TUF the new Article 123-ter, under which a special Remuneration Report - whose contents are described in detail in Annex 3 of the Rules for Issuers - must be approved by the Board of Directors and submitted to the non-binding resolution of the General Shareholders' Meeting called to approve the Financial

Statements.

The above framework is further completed by the recommendations laid down by the Corporate Governance Code for listed companies, adopted by Banca Generali, which incorporates the main aspects of the recommendations issued by the European authorities on the process for determining the remuneration policies and their content.

Therefore, the Shareholders' Meeting of 24 April 2013, also pursuant to Bank of Italy's regulation of 30 March 2011 and Article 6 of the Corporate Governance Code for Listed Companies (the new version was approved in December 2011 by the Corporate Governance Committee), acknowledged the disclosure on the implementation in 2012 of the remuneration policy approved by the General Shareholders' Meeting on 24 April 2012 and approved the new remuneration policy of the Company and the Group. In this regard it should be mentioned that in implementing its remuneration policies, Banca Generali aims at ensuring the greatest possible convergence of the long-term interests of the banking group's shareholders and management, especially by focusing on careful corporate risk management and commitment to long-term strategies. The remuneration package consists of fixed components and variable components. The variable component of the remuneration relative to the fixed component increases in percentage terms the greater the strategic importance of the position to which the remuneration refers.

The fixed components of the remuneration serve to remunerate the managerial and technical skills of employees used to perform the roles assigned to them, in order to ensure managerial continuity and pursue effective and fair internal remuneration policies that are competitive in respect of the external market.

The aim of the recurring variable components of remuneration and long-term incentives (such as stock option plans, stock granting schemes and deferred bonus systems), on the other hand, is to balance directly the interests of the shareholders and those of management.

A Management by Objectives mechanism, consistent with the achievement of the operating and financial results indicated by the budget for the reference year and with indicators reflecting the weighting of business risks, is used for the Managing Director and Executives. The Management by Objectives system is linked to the Balanced Scorecards principle. The variable remuneration is hence linked on a straight-line basis to the degree to which the individual objectives are achieved, with a minimum access threshold.

In 2010, a system for the deferral of the disbursement of variable remuneration was introduced for the Generali Banking Group's key management personnel and main network managers who earn a bonus in excess of 75,000 euros.

In 2010, in order to link the variable pay of management personnel even more closely to long-term performance indicators, and in order to also take account of current and prospective risks, the cost of capital and the cash required to meet the needs of

the activities undertaken, accrual of bonuses will be linked not only to the effective results achieved by each manager, but also to an access gate common to the Banking Group's entire staff.

The remuneration patterns of high-level executives and managers are monitored, taking due account of trends recorded on reference markets, using the HAY point-factor job evaluation method. This weighting system enables effective mechanisms to be adopted for monitoring the remuneration dynamics, also with reference to the markets in which the company operates.

Information regarding the emoluments received by Board members and the General Manager during the year is contained in Banca Generali's Remuneration Policy, under the section focusing on the application of the said policy in 2013.

Information regarding the cumulative remuneration received during the year by executives with strategic responsibilities - and that is to say, Joint General Manager Giancarlo Fancel, Sales Area Joint General Manager Gian Maria Mosca, Central Managers Stefano Grassi, Stefano Insaghi and Cristina Rustignoli - as well as further details pertaining to the Company's remuneration policy, will, similarly, be provided in Banca Generali's Remuneration Policy, which will be published pursuant to Article 123-ter of TUF. However, it should be mentioned that in any case the objectives set for the persons in charge of control functions, including the HR Director and the Manager in charge of the Company's financial reports - in accordance with the above-mentioned Bank of Italy's Regulations - are consistent with the tasks assigned to each of them and are not linked to economic results of the Company or the Group.

Pursuant to Article 6.C.4 of the Code, the remuneration due to non-executive directors may not be linked to the Issuer's financial performance. Non-executive directors may not benefit from any stock-based remuneration plan, and are consequently remunerated solely on the basis of fixed compensation established by the General Shareholders' Meeting.

In order to motivate key management personnel and the distribution network to pursue strategic results for the Company, on 24 May 2006 Banca Generali approved two stock option plans, both subjected to the condition precedent of the commencement of trading of shares in the Company on the electronic share market - MTA (such condition precedent having been met on 15 November 2006): (i) the first of these is reserved to employees of Banca Generali Group companies, whilst (ii) the second is reserved to Banca Generali's financial advisors, area managers and business managers.

In order to cover the aforesaid Stock Option Plans, on 18 July 2006, the Company's Extraordinary Shareholders' Meeting approved a capital increase, in one or more tranches, in the maximum nominal amount of 5,565,660.00 euros, through the issue of a maximum number of 5,565,660 ordinary shares of a face value of 1.00 euro each, as follows:

- a) an issue in the maximum nominal amount of 4,452,530.00 euros, represented by a maximum number of 4,452,530 ordinary shares of a face value of 1.00 euro each, with specific

exclusion of the option rights afforded to shareholders pursuant to Article 2441, paragraph 5, of the Italian Civil Code, so as to cover the “Stock Option Plan for Banca Generali S.p.A.’s Financial Advisors and Network Managers”, reserved to the financial advisors of Banca Generali Group, all of the above in one or more tranches, with the last being effected no later than 30 May 2011;

- b) an issue in the maximum nominal amount of 1,113,130.00 euros, represented by a maximum number of 1,113,130 ordinary shares of a face value of 1.00 euro each, with specific exclusion of option rights afforded to shareholders pursuant to Article 2441, paragraph 8, of the Italian Civil Code, so as to cover the “Stock Option Plan for Banca Generali S.p.A. Employees”, reserved to Banca Generali employees, all of the above in one or more tranches, with the last being effected no later than 30 November 2012.

In order to compensate optionees for the loss in value of the above-mentioned Stock Option Plans due to the well-known market conditions that occurred in 2007 and 2008, which had a negative impact on the stock performance, despite the achievement of excellent results in terms of net inflows, the Shareholders’ Meeting held on 21 April 2010 resolved to approve an extension by three years of the exercise period for both of the above-mentioned Plans.

The price of the aforesaid options shall be determined at a whole number reflecting the arithmetic mean of the listed prices of shares in the Company on the electronic share market from the date of assignment of the stock options to the same day of the previous month.

The exercise of the options is subject to the attainment of overall targets and, in the case of the “Stock Option Plan for Banca Generali S.p.A.’s Financial Advisors and Network Managers”, even personal targets.

Pursuant to the applicable Rules, the Delegated Organs awarded:

- 2,540,136 option rights in application of the “Stock Option Plan for Banca Generali S.p.A.’s Financial Advisors and Network Managers”;
- 829,000 option rights in application of the “Stock Option Plan for Banca Generali S.p.A. Employees”.

In total, 3,369,136 stock options were awarded pursuant to the aforesaid Plans.

Moreover, on 21 April 2010, the Shareholders’ Meeting approved a broad-ranging retention programme, which comprised two Stock Option Plans targeted at (a) financial advisors and private bankers, as well as (b) employees serving Banca Generali as Relationship Managers.

This initiative had a twofold objective: maintaining the interest of the distribution network and network managers in line with the interest of shareholders, in the medium- and long-term, as well as enhancing the loyalty of the most promising profession-

als, by involving the same economically in overall value creation within the Company, whilst also providing incentives to boost productivity in the medium term.

The new Plans will apply to financial year 2010, in addition to the fourth quarter of 2009, as limited to net inflows associated with the so-called “tax shield”.

The retention programme called for the granting of a total maximum of 2,500,000 options for the subscription of Banca Generali ordinary shares (of which 2,300,000 reserved for financial advisors and network managers and 200,000 for employed relationship managers).

In this regard, options were to be granted in a single instalment to the optionees identified as included in one of the above-mentioned categories by the relevant Plan Management Committee. The grant was conditional upon the achievement of both consolidated Group objectives and individual objectives for the development of net inflows in the reference period.

Pursuant to the applicable Rules, in 2011 the Delegated Organs awarded:

- (i) 2,300,000 option rights in application of the Stock Option Plan for Banca Generali S.p.A.’s Financial Advisors and Network Managers;
- (ii) 200,000 option rights in application of the Stock Option Plan for Banca Generali S.p.A. Relationship Managers.

In total, 2,500,000 stock options were awarded pursuant to the aforesaid Plans.

The options are exercisable within 6 years from 1 July 2011 in the amount of one sixth per year. The recipients have the right to subscribe to Banca Generali ordinary shares for consideration equal to the arithmetic mean of the market listing prices of the shares in question on the electronic share market (MTA), organised and managed by Borsa Italiana S.p.A. surveyed during the period from the option grant date to the same date of the previous solar month.

In order to give full effect to the Stock Option Plan for the financial advisors and network managers of Banca Generali S.p.A. for 2010 and the Stock Option Plan for the Relationship Managers of Banca Generali S.p.A. for 2010, the Shareholders’ Meeting held on 21 April 2010 resolved, pursuant to Article 2441, paragraphs 5 and 8 of the Italian Civil Code, on a divisible increase in the Company’s share capital by an amount equal to the maximum number of options that may be granted under the above-mentioned Plans, and thus in a maximum nominal amount of 2,500,000.00 euros, broken down as follows:

- a) for a maximum amount of 2,300,000.00 euros, reserving the same for financial advisors and private bankers of the Banca Generali Group, to serve the “Stock option plan for financial advisors and network managers of Banca Generali S.p.A. for 2010”;
- b) for a maximum nominal amount of 200,000.00 euros, reserving the same to Banca Generali employed relationship

managers and their coordinators, to serve the “Stock option plan for Relationship Managers of Banca Generali S.p.A. for 2010”.

Moreover, as a result of the merger of Prime Consult SIM S.p.A., as of 31 December 2002, the Company has assumed the merged company’s commitments under the stock granting plan approved by the latter on 13 June 2001 in favour of its network managers and financial advisors.

Beneficiaries of the plan include: (i) financial advisors in the exclusive service of Prime Consult as at 1 October 2000; (ii) former Prime Consult network managers; (iii) financial advisors falling within the aforesaid categories in the period between 1 October 2000 and 31 December 2001.

The shares were issued in three tranches, to persons who met or maintained specific individual targets. The Delegated Organ awarded, free of charge, 1,402,474 Banca Generali ordinary shares.

Lastly, in approving the Remuneration Policies and with regard to long-term incentives, on 24 April 2013 the General Shareholders’ Meeting resolved to increase the variable component of the remuneration of some of Banca Generali’s managers by admitting the same beneficiaries of the Generali Group’s Long Term Incentive Plan (“LTIP”) for executives serving the Generali Group in Italy and abroad, approved by the General Shareholders’ Meeting of Assicurazioni Generali S.p.A. The plan is targeted at reinforcing the relationship between the remuneration of management and expected performance according to the strategic plan of the Group (“absolute” performance), as well as the relationship between remuneration and value generation in relation to a group of peers (“relative” performance).

Directors’ severance indemnities in the event of resignation, dismissal or severance as a result of a takeover bid (pursuant to Article 123-bis, paragraph 1, letter i) of TUF)

The benefits envisaged in the event of the severance of Chief Executive Officer Piermario Motta include - in addition to the notice indemnity required by law - a sum equivalent to 24 months of recurring compensation (defined as his compensation as Chief Executive Officer, plus half of the average amount actually collected by way of short-term component of variable remuneration over the past three years) in the following cases:

- severance of employment at the employee’s initiative, where a consequence of the Bank’s decision to modify the economic terms of the contract for the position of chief executive officer to the employee’s detriment;
- dismissal by the competent body from the position of chief executive officer at the bank’s initiative, where such initiative is not the result of wilful misconduct or gross negligence by the employee and where such dismissal is in accordance with Mr. Motta’s desire to terminate his employment contract as well.

It is understood that if Mr. Motta is dismissed from only one of the two positions he fills (Chief Executive Officer and General Manager) at the bank’s initiative, the compensation obligation, where applicable, applies if, and only if, Mr. Motta also resigns from the other position concurrently filled.

Such amount will have to be paid in compliance with the “Provisions governing the remuneration and incentive policies of banks and banking groups” issued on 30 March 2011 by the Bank of Italy.

10. INTERNAL CONTROL AND RISK MANAGEMENT SYSTEM

The bank's Board of Directors adopted an organisational model for the Group's internal control system, under which so-called second and third control functions are centralised within the Parent Company, especially so as to meet the need for managerial as well as technical-operating coordination that is as deep-reaching as the strong strategic coordination of group companies, achieved through the presence of representatives of the Parent Company on the governance and control bodies of subsidiaries.

As required pursuant to the Italian Civil Code and the supervisory regulations for banks and, as recommended in the Corporate Governance Code, the Bank has adopted an internal control system capable of continuously monitoring typical business risks.

The internal control system is therefore a structured set of organisational functions, procedures and rules of conduct aimed at ensuring sound and proper corporate governance in line with preset targets, through adequate processes for identifying, measuring, managing and monitoring the main business risks. The system forms an integral part of the Company's operations and entails the involvement of all corporate structures and sectors, each of which is called upon to ensure constant and continuous risk monitoring, within the limits of its specific sphere of competence.

Within this framework, Banca Generali has set up an internal control system, fully compliant with the provisions of Article 7 of the Corporate Governance Code and, moreover, specifically designed to ensure healthy and prudential corporate management of the bank and the group, whilst at the same time reconciling the attainment of corporate targets, the proper and timely monitoring of risks and appropriate operating procedures.

Banca Generali S.p.A.'s Internal Control System was most recently updated by the Board of Directors on 24 January 2008 (with effect as of 1 March 2008) with a view to bringing the same in line with regulations introduced through the provisions for the implementation of MiFID in Italy. Afterwards, the Internal Control System was regularly revised and amended, lastly by the Board's resolution dated 28 March 2013.

Pursuant to the said provisions and applicable supervisory regulations, it is made up of:

- (i) *checks involving the business lines*: systematic or periodic checks on samples of information, carried out by the heads of individual operating units with a view to ensuring the proper completion of the transactions effected by the same production structures, or incorporated into procedures, or performed as part of middle/back-office processes;
- (ii) *risk management checks*: checks carried out by the heads of individual operating units and by the Risk Management Department, as part of the process of determining risk measurement methods, with a view to ensuring compliance

with the thresholds assigned to the various operating departments, as well as in order to maintain the operations of individual production units in line with the risk/return targets set for specific types of risk (credit risk, market risk, operating risk);

- (iii) *compliance checks*: checks carried out by the Compliance Department on the conformity of transactions with statutory requirements, orders and instructions imposed under supervisory authorities and the Company's self-imposed rules of conduct;
- (iv) *compliance checks* regarding anti-money laundering: checks carried out by the Anti Money Laundering Service on the conformity of transactions with statutory requirements, orders and instructions imposed under supervisory authorities and the Company's self-regulations;
- (v) *internal auditing*: checks carried out by the Internal Audit Department with a view to ensuring the propriety of the Company's operations, risk trends, the overall functioning of the internal control system, whilst at the same time identifying abnormal trends, breaches of procedure and regulations, as well as assessing the effectiveness of internal control.

The Company's Internal Control system is structured to ensure proper disclosure of information and adequate oversight of all the Group's activities, with a view to promoting fairness and transparency, in both form and substance, whilst also ensuring the efficiency, traceability and auditing of transactions, and more in general all management activities; the reliability of accounting and management data; compliance with laws and regulations, and the protection of the integrity of the Company's assets, especially in order to prevent fraud against the customers, the Company and the financial markets.

The key principles underlying the Company's Internal Control System include:

- the separation of roles in the performance of the main tasks involved in individual production processes;
- the traceability and constant visibility of choices;
- objective decision-making with regard to individual operating processes.

Responsibility for the Internal Control System, pursuant to applicable regulations, resides with the Board of Directors that is in charge of: (i) establishing the guidelines, strategic orientation and risk management policies pertaining to the internal control system; (ii) approving the bank's organisational structure, ensuring that tasks and responsibilities are clearly and properly assigned, and periodically checking the adequacy and effectiveness of the said structure, further ensuring that the main corporate risks are identified and appropriately managed, that

the Company's control structures are endowed with sufficient autonomy and independence within the Company's organisation as well as with adequate resources to ensure the proper functioning thereof.

The Board of Directors, with the support of the Internal Audit and Risk Committee, also carries out periodic assessments of the functioning, effectiveness and efficiency of the internal control system, taking timely corrective action in case of shortcomings and/or anomalies in the performance of the checks themselves.

Pursuant to supervisory regulations, internal control functions must be independent from other operating functions, and report directly to the Board of Directors and Board of Statutory Auditors, on a periodic basis, in respect of the outcome of its activities.

On 25 September 2003, the Board of Directors appointed Francesco Barraco head of the Internal Control Department and Head of the Internal Audit Function, with effect as from 1 October 2003. His remuneration is examined each year by the Board of Directors and is in line with best market practice.

In keeping with Banca Generali's organisational model, the Internal Audit function is vested with a dual role: (i) an *institutional* role arising from the fact that the Company is the parent company of a banking group and involving the direct auditing of all the Group's operating and managerial processes, whilst also developing control models, methods and tools; (ii) a service role under which the Company's Internal Audit department undertakes internal auditing activities for other Group companies, pursuant to outsourcing arrangements.

The auditing method, on which internal auditing activities are based, is defined under the Internal Audit Rules approved by the Board of Directors and the supervisory model, also approved by the Board of Directors and constantly implemented in light of developments in oversight compliance and best auditing practices (COSO Report, professional standards).

Pursuant to applicable regulations, on 28 March 2013, the Board of Directors appointed Luca Giaimo to head the Compliance Service as of 1 May 2013.

The Board of Directors approved the Banking Group's Compliance Policy (as last updated by Board resolution of 26 June 2013) and related Compliance Rules (as last amended by Board resolution of 22 February 2011), ordering the timely notification thereof to all subsidiaries, with a view to ensuring that the said Policy and Rules are fully implemented throughout the banking group.

On 27 August 2008, the Board of Directors vested Antonino Fici with the responsibility of the Risk Management Service, effective 1 September 2008, and on 28 March 2013, it also vested Julia Merson with the responsibility of the Anti Money Laundering Service, effective 1 May 2013.

As already noted, in compliance with the Code's recommendations regarding internal control, on 27 November 2006, the Board set up within itself an Internal Audit and Risk Committee

in charge, among other tasks, of completing all the preparatory activities required for the Board to properly undertake its internal control tasks (for further information, see "Internal Audit and Risk Committee", above).

Moreover, with regard to risks, the Chief Executive Officer may also avail of the advice of the Risks Committee established by Board resolution of 23 September 2008 with a view to coordinating the banking group's risk management and control system, and identifying and implementing appropriate risk containment measures.

In order to transpose the Code's provisions on internal controls, pursuant to Article 8 of the Board Rules requires, the Board:

- (i) defined guidelines for the Internal Control and Risk Management System so that the primary risks affecting the Company and its subsidiaries are properly identified and adequately measured, managed and monitored, and also determine the degree to which such risks are compatible with management of the Company consistent with the strategic goals identified;
- (ii) assesses, with at least annual frequency, the adequacy of the Internal Audit and Risk Management System with respect to the Company's characteristics and the risk profile assumed, as well as the effectiveness of the System;
- (iii) approves the working plans drafted by the Heads of the Compliance, Anti Money Laundering, Internal Audit and Risk Management functions and review the periodic reports drafted by those functions;

As part of his/her activities concerning the management and coordination of the Group, the person in charge of internal control also exercises:

- a) strategic control over the development of various business areas in which the Group operates, and the risks arising from the own securities portfolio. This type of control is aimed at monitoring the expansion of the business operations of group companies, and their policies in terms of mergers, demergers and acquisitions. Strategic coordination is ensured primarily through presence of a certain number of persons appointed by the Bank's Board of Directors, on the Board of Directors of group companies;
- b) operating control aimed at ensuring that the income statements, cash flow and balance sheets of both, individual group companies and the group as a whole, are appropriately balanced. These checks are carried out preferably through the drawing up of plans, programmes and budgets (for each group company and for the group as a whole) and by analysing the quarterly performance, interim results and annual financial statements of each group company and the group as a whole, duly broken down by specific business sector, and with regard to the entire group. Operations are coordinated by the Planning and Control Department which liaises with the company bodies/functions of each of the subsidiaries;
- c) technical-operating control aimed at assessing the profiles

of the various risks incurred by the group as a whole as a result of the business operations of individual subsidiaries.

10.1 The Director in charge of the internal control and risk management system

The Board of Directors has appointed the Chief Executive Officer, the Executive Director in charge of overseeing the functioning of the internal control and risk management system. The Chief Executive Officer defines operating policies and related risk control procedures, identifying and evaluating, including on the basis of management trends and departures from forecasts, any and all factors giving rise to risks, and assesses the functioning, effectiveness and efficiency of the internal control system, promoting the updating of the same as may be necessary or useful, from time to time.

The Chief Executive Officer, to whom the Internal Audit function reports on an operating basis, shall also:

1. identify the main corporate risks, taking due account of the business operations of the Company and its subsidiaries, and submit periodic reports on the same to the Board of Directors and the Audit and Risk Committee;
2. implement the guidelines laid down by the Board of Directors in designing, setting up and managing the internal control system, and constantly monitor the overall adequacy, effectiveness and efficiency of the same, whilst also adapting the said system to changes in operating conditions and in the applicable statutory and regulatory framework;
3. recommend to the Board, after hearing the opinion of the Internal Audit and Risk Committee, the appointment, dismissal and remuneration of a person in charge of internal control;
4. request that the heads of Internal Audit, Compliance or Risk Management, each according to their respective competencies, conduct audits of specific operating areas and compliance with internal rules and procedures in carrying out company operations;
5. report in a timely manner to the Audit and Risk Committee and the Board of Directors concerning the problems and critical issues brought to light, or of which he/she has otherwise become aware, so that they make undertake the appropriate initiatives.

Functional reporting to the Chief Executive Officer is consistent with industry regulatory provisions for banks of the size of Banca Generali. In any event, it is ensured that the Internal Auditor may report directly on the activity performed to the Board of Directors, Board of Statutory Auditors and Internal Audit and Risk Committee.

10.2 Internal Auditor

On 25 September 2003, the Board of Directors appointed Francesco Barraco head of the Internal Control Department and Head of the Internal Audit Function, with effect as from 1 October 2003. In keeping with Banca Generali's organisational model, the Internal Audit function is vested with a dual role: (i) an *institutional* role arising from the fact that the Company is the parent company of a banking group and involving the direct auditing of all the Group's operating and managerial processes, whilst also developing control models, methods and tools; (ii) a service role under which the Company's Internal Audit department undertakes internal auditing activities for other Group companies, pursuant to outsourcing arrangements.

The Internal Auditor:

1. is charged with verifying that the internal control system is always adequate, fully operational and functional; to that end, he/she verifies, both on an ongoing basis and in relation to specific needs, and in accordance with international standards, the suitability of the internal control and risk management system, through an audit plan approved by the Board of Directors and based on a structured process of analysis and prioritisation of the main risks;
2. is not to be assigned responsibilities for any operating department and not to be hierarchically answerable to the head of any operating department, including the administration and finance department;
3. is to be afforded direct access to any and all the information that may be useful for the performance of his/her duties;
4. is to be endowed with adequate resources for the performance of his assigned duties;
5. reports on his/her actions to the Internal Audit and Risk Committee, Board of Statutory Auditors, Board of Directors and Chief Executive Officer, preparing periodic reports containing adequate information about his/her activity, the manner in which risks are managed and compliance with the plans defined to contain those risks. Expresses an opinion, in particular on the effectiveness of the internal control and risk management system in ensuring an acceptable overall risk profile;
6. prepares reports on events of particular significance in a timely manner, forwarding them to the bodies mentioned above;
7. verifies the reliability of the systems in the context of audit plans;
8. has a budget to refer to for completing his/her tasks and activities.

During the year, Internal Audit activity pertained in particular to the safeguards associated with risks arising from IT and security processes, privacy, the processing of customers' orders, risk management (credit, liquidity, operating, anti-money laundering and fraud risk), investment services and administrative and ac-

counting entries, with intervention at all levels of control with the responsible departments. The Internal Auditor also monitored the improvement paths for existing controls, which were initiated as a result of previous audits follow ups.

Main features of the Company's risk management and internal control systems related to the financial reporting process (pursuant to Article 123-bis, paragraph 2, letter b) of TUF)

The risk management and internal control systems as they relate to the financial reporting process adopted by the bank (the "System") are part of the broader Internal Control and Risk Management System described in the previous section.

The System addresses the issues of internal control and risk management arising in respect of the financial reporting process, from an integrated perspective, with a view to identifying, assessing and containing the so-called financial reporting risks: (i.e., risks of errors leading the annual financial statements, the condensed half-yearly financial statements, the consolidated financial statements and/or other financial disclosures and filings, to reflect a view of the balance sheet, income statement and/or cash flow that cannot be described as true and/or fair) to which the Company and the Group are exposed.

The System is thus intended to guarantee the reliability, accuracy and timeliness of financial reports. To this end, the bank created a financial reporting risk model consisting of principles and rules that aim to guarantee an adequate administrative and accounting system, in part by ensuring the availability of procedures and instructions.

The Manager responsible for preparing the company's financial reports works within this framework. The Manager is charged by Italian Law no. 262 of 28 December 2005 ("Law 262") with the critical task of ensuring the reliability of accounting documents and availability of adequate administrative and accounting procedures for listed companies based in Italy.

The Manager responsible for preparing the company's financial reports is responsible for defining the methodological and organisational aspects of adopting the financial reporting risk model within the Company and Group to the extent of the powers and means granted to him/her under paragraph 4 of Article 154-bis of the TUF.

The financial reporting risk model adopted is based on a process developed by the Company in accordance with the following reference frameworks, which are generally recognised and accepted internationally:

- (i) the CoSO (Committee of Sponsoring Organisation of the Treadway Commission). Internal Control - Integrated Framework, released in 1992, defines guidelines for assessing and developing an internal control system. In the CoSO Framework, the model refers to the component of the internal control system concerning the processes of collection,

processing and publication of financial information flows (financial reporting);

- (ii) COBIT (Control Objective for IT and Related Technology, built by the IT Governance Institute based on the CoSO Framework), provides specific guidelines for IT and can be used together with ITIL (Information Technology Infrastructure Library, a framework already used by the Group) and ISO/IEC 27001 (International Organisation for Standardisation/Information Electrotechnical Commission).

Within the Group, the financial reporting risk model has been extended to companies identified as relevant in the context of the model ("Companies within the Scope of Application"). In particular, the Companies within the scope of analysis area adopt a financial reporting risk model that is consistent with the model used by the Company so as to create a uniform system throughout the Group. The models are then changed as indicated by Banca Generali's Manager responsible for preparing the company's financial reports.

Key characteristics of the existing risk management and internal control system as it relates to the financial reporting process

The key characteristics of the financial reporting risk model adopted by Banca Generali are summarised below, with particular reference to: (A) phases of the model; (B) departments/employees involved in the model and their respective roles; (C) information flows.

(A) Phases of the financial reporting risk model

The different phases of the financial reporting risk model were defined by the Company based on the reference framework (CoSO Framework). In detail, the model may be divided into the following phases: (i) identification and assessment of financial reporting risks, (ii) identification and assessment of controls for mitigating identified risks.

(i) Identification and assessment of financial reporting risks:

to identify and assess financial reporting risks, the Company identifies the relevant companies and significant information (consolidated accounts and company-wide processes), considering both quantitative and qualitative elements. Companies within the scope of analysis are those that, in considering the relationships between the assets, revenues and profit or loss of the individual companies and consolidated balances, exceed specific limits established by best market practice (in 2013, such companies accounted for nearly all of consolidated assets). In relation to the consolidated accounts, significance is determined based on the guidelines generally used in audit procedures. Processes are considered significant and therefore subject to analysis

if, from an accounting perspective, they have a potential impact on the consolidated accounts. All processes involved in period-end reporting are included in the scope of processes to be analysed. Each process is assigned an analysis priority based on quantitative elements. Lastly, qualitative elements referring to the companies' risk profiles, which are based on both internal and external factors, are added to the scope of analysis. The scope of analysis is revised at least annually or when warranted by changes in the Group's structure.

Each risk is evaluated to determine its level of significance based on its inherent risk (or gross risk), which does not consider the mitigating effect of controls associated with it. The assessment of gross risk is based on a combination of (i) the probability that the event, that could potentially cause an administrative or accounting error, will occur during a specific timeframe, and (ii) the impact that such event could have on accounting and financial data and, consequently, on the presentation of a true and fair view of assets, liabilities, profit or loss and financial position. The probability is determined by the frequency of controls and how they are carried out, while the impact is measured based on the priority of the analysis process, as described above. The result of the assessment process can be either "high", "medium" or "low". Furthermore, as part of the assessment, control objectives are established in accordance with best market practice. Each control objective is associated with a specific financial assertion (existence or occurrence, completeness, valuation or allocation, presentation and disclosure, rights and obligations).

(ii) Identification and assessment of controls for mitigating identified risks;

The financial reporting risk model includes the following types of controls: (a) company-level; (b) process-level; (c) information technology.

The structure of the controls is designed so as to allow adequate identification and assessment and is based on four main characteristics:

- a) time of execution: controls can be either preventative or after-the-fact;
- b) the execution procedure: manual, automatic or semi-automatic;
- c) nature (i.e., structural characteristics): authorisation, reconciliation, management review, etc.;
- d) frequency (i.e., time interval of controls): weekly, monthly, quarterly, etc.

Control analyses include a phase in which the adequacy of the design is evaluated and a phase in which the actual application is evaluated according to specific methods for each type of control. If during these phases shortcomings are identified in the management of financial reporting risk, the appropri-

ate corrective measures or actions are determined. The implementation of corrective measures or actions is constantly monitored by the Manager responsible for preparing the company's financial reports.

(a) Company-level controls

The goal of company-level controls is to ensure the existence of an organised, formal company structure designed to reduce the risk of improper conduct through adequate governance systems, standards of conduct based on ethics and integrity, efficient organisational structures, clarity in the assignment of powers and responsibilities, adequate risk management policies, employee disciplinary systems, efficient codes of conduct and fraud-prevention systems. Adequacy assessments focus on ensuring the existence and dissemination of the appropriate tools (such as policies, codes, rules, service rules, etc.) used to identify rules of conduct applicable to company employees. The next phase involves evaluating the actual application of the aforementioned rules.

(b) Process-level controls

Process-level controls are carried out at a more detailed level than company-level controls and are aimed at mitigating financial reporting risk through controls included in the Company's operating processes. Assessments of control adequacy are carried out by identifying company processes, determining the key controls used to manage financial reporting risk and evaluating the appropriateness of such controls in mitigating this risk. Efficiency assessments involve verifying the actual and correct execution of controls and the adequacy of related documentation.

(c) Controls on Information Technology (IT)

IT controls focus on processes associated with managing and handling information stored in the computer systems used to create the financial statements. Specifically, analyses are performed on controls concerning software purchases and maintenance, physical and logical security management, application development and maintenance, data completeness and accuracy, IT risk analysis and information system management. As for the applications used to create the financial statements, in relation to business processes as well as period-end reporting, analyses focus on evaluating the adequacy of controls as they pertain to the key best practices and reference frameworks used and ensuring that controls remain functional according to standardised methodologies. The analyses also evaluate the efficiency of the main automatic controls performed by applications as part of major processes;

(B) The departments/employees involved in the model, their roles and information flows

Consistent with the internal control and risk management system adopted by the Company, the financial reporting risk model engages its corporate boards and operating and control units

in an integrated management approach based on the various levels of responsibility so as to guarantee the model's ongoing adequacy.

The Board of Directors, with the support of the Internal Audit and Risk Committee, ensures that the model enables the identification, assessment and control of major risks, at both the Company and Group level, through the definition of strategies and general internal-control and risk-management guidelines. In compliance with applicable legislation, the Board also ensures that the Manager responsible for preparing the company's financial reports has the necessary means and powers to perform the duties assigned to him/her under Italy's Law no. 262.

The Manager responsible for preparing the company's financial reports is responsible for implementing, maintaining and monitoring the financial reporting risk model in compliance with the strategies defined by the Board. Accordingly, he/she is responsible for evaluating the adequacy and use of administrative and accounting procedures and their ability to present a true and fair view of the assets, liabilities, profit or loss and financial position of the Company and Group. In fulfilling these responsibilities, the Manager responsible for preparing the company's financial reports is supported by a special unit (Law 262 Organisational Unit) that is charged with the task of coordinating all activities necessary for the correct performance of the duties assigned to him/her. The Unit also serves as a point of reference for the entire Group as regards the management of administrative and accounting risks through guidance and coordination activities.

Banca Generali's Regulations Service is responsible for mapping the administrative and accounting processes of the Company and Group and ensuring that the information and documentation pertaining to them is kept up-to-date.

The Internal Audit Department periodically evaluates the efficiency of procedures and controls included in these processes and supports the Law 262 Organisational Unit in its assessment of the risks and related controls within the Group's administrative and accounting processes.

Compliance Service is responsible for checking and assessing the appropriateness and effectiveness of administrative and accounting processes, with a view to ensuring compliance with any and all applicable regulatory provisions governing the performance of any and all the banking and investment services offered by the Banking Group, especially so as to minimise the risk of non-conformities.

Process Owners (managers of the Company's and Group's Organisational Units) are appointed by Top Management and are in charge of managing one or more major processes in accordance with Law no. 262. They are responsible for ensuring that the documentation system put in place by the Group's dedicated units is consistent with actual operations. This is achieved by promptly communicating changes that have been made and implementing corrective actions designed to address any shortcomings found.

Furthermore, if key activities and/or controls that are the responsibility of a department other than the Process Owner's are identified within a process, a Sub-Process Owner is appointed with the duty and responsibility of ensuring that operations are consistent with company procedure. This is achieved by identifying, formalising and continuously updating the portion for which he/she is responsible.

The Company also developed - through a special circular related all Group companies - a documentation system that ensures that all boards, departments and employees with specific tasks within the internal control and risk management system work together to complete their respective duties.

The activities, information and documents included in the financial reporting risk model are managed using computer applications that are shared with other control units.

The Manager in charge of the financial reports of the Company reports to the Board of Directors on a regular basis as to the activities carried out in exercising his/her functions.

10.3 Organisational model pursuant to Legislative Decree no. 231/2001

Legislative Decree no. 231 of 8 June 2001 introduced the principle that corporations may be held liable for specifically listed offences committed or attempted in their interest and/or for their benefit by individuals entrusted with corporate representation, administration and management, or individuals subjected to the management or oversight of one of the latter.

The above-mentioned Decree provides for exemption from this form of liability in the case of entities which have adopted and effectively implemented organisational and management models designed to prevent the aforesaid offences.

The adoption of an Organisational and Management Model (hereinafter the "Model") is not an obligation or duty, but a right, that the Company has decided to exercise in order, not only to restructure and formalise, where necessary, a system of preventive checks aimed at preventing conduct entailing administrative liability for the Company pursuant to the above-mentioned Decree, but also to ensure the Company's own integrity, and to boost the effectiveness and the transparency of corporate operations.

On 19 June 2006, the Board of Directors approved the Company's Organisational and Management Model, drawn up in light of the Company's specific operating conditions and requirements. The aforesaid Model must be constantly updated taking due account of changes in the relevant regulatory framework. A copy of the Model is available on the website www.bancagenerali.com/About us/Corporatestructure/BancaGenerali. Apart from meeting all the necessary formal requirements, the Model fully achieves, even in substance, the aforesaid main goal underlying its adoption and aims at preventing from all types of

offences contemplated in the relevant laws. The Model is made up of a structured set of principles, rules, provisions and organisational layouts pertaining to the management and oversight of business operations, and is contained in an illustrative document that sets forth the general rules that make it impossible for the offences to be committed without fraudulently violating the model.

In accordance with the provisions of the aforesaid Decree, the task of supervising compliance with the Model and updating the same, must be entrusted to an independent and qualified body set up within the entity, and endowed with autonomous powers of initiative and oversight.

The Company has therefore set up a panel to act as a Supervisory Board (reporting to the Board of Directors), defining the tasks and functioning thereof. The Company has opted to appoint to the said Supervisory Board, persons who hold positions within the Company's organisational structure, that, for technical and/or organisational reasons, enable them to make meaningful contributions to performing the tasks and attaining the goals of the Supervisory Board.

The Board of Directors has decided that the Company's Supervisory Board shall consist of a panel made up of a non-executive and independent Director, the Head of Governance and Company Risks Area and the Head of the Internal Audit Department.

The make-up of the current Supervisory Body, the members of which are specified in the table below, was approved by the Board of Directors on 12 September 2012:

NAME AND SURNAME	OFFICE HELD
Mario Francesco Anaclerio	Chairman and Non-executive Director
Francesco Barraco	Head of Internal Audit Department
Cristina Rustignoli	Head of Governance and Company Risks Area

With respect to the guidelines envisaged in the Bank of Italy's Circular no. 263, in the first part of 2014 the duties and responsibilities assigned to the Supervisory Body will be transferred to the Board of Statutory Auditors.

In carrying out its tasks, the Supervisory Board is to avail of the support of other corporate departments, especially the Compliance Department.

10.4 Independent Auditors

In light of the regulatory framework following the entry into force of the Italian Legislative Decree 303/2006, the Ordinary Shareholders' Meeting held on 24 April 2007 extended the ap-

pointment of the auditing firm Reconta Ernst & Young S.p.A., appointed with the resolution passed at the Shareholders' Meeting of 18 July 2006, to the date of approval of the financial statements for the year ending 31 December 2014. As a consequence of this extension, the total number of consecutive years subject to auditing is nine, and, therefore, the appointment complies with the provisions of Article 17, of Legislative Decree no. 39 of 27 January 2010.

10.5 Manager in charge of the Company's financial reports

Article 154-bis of Legislative Decree no. 58 of 24 February 1998, introduced by Law no. 262 of 28 December 2005, requires inter alia:

- the Manager in charge of the Company's financial reports to issue a written statement attesting that any and all notices and information the Company discloses on the market in respect of its annual and/or interim financial reports corresponds to the documentary results, books and accounting records;
- the Manager in charge of the company's financial reports and the delegated Administrative Bodies to issue a joint written statement to be attached to the annual financial statements, the condensed half-yearly financial statements, and, where applicable, the consolidated financial statements, certifying the appropriateness and effective implementation of all relevant accounting and administrative procedures during the accounting period of reference, as well as warranting that all the related accounting documents were prepared in accordance with the international accounting principles generally accepted and applied within the European Union, and, accordingly faithfully reflect the contents of the Company's accounting books and records, with the result that the said accounting documents may be deemed to provide a true and fair view of the balance sheet, income statement and cash flow of the Company and the Group, and moreover, attesting, in respect of the annual financial statements and the consolidated financial statements, that the related Directors' Report includes a reliable analysis not only of business trends and operating results, but also of the situation of the Issuer and all the companies included in the reporting entity, together with a description of the main risks and uncertainties to which the Company and Group are exposed, as well as, in respect of the abbreviated half-yearly financial statements, that the related interim Directors' Report comprises a reliable analysis of the information mentioned in paragraph 4 of Article 154-ter of TUF;
- the Board of Directors to oversee the appropriateness of the powers and resources made available to the Manager in charge of the company's financial reports and the proper

implementation of “administrative and accounting procedures”.

Pursuant to Article 23, paragraph 3 of the Articles of Association, the Board of Directors, after consultation with the Board of Statutory Auditors, shall appoint and dismiss the Manager in charge of the company’s financial reports, in compliance with Article 154-*bis* of Legislative Decree no. 58 of 24 February 1998, establishing the powers and resources of the same.

Paragraph 4 of the same Article provides that the said Manager shall be selected from amongst the company executives in possession of the following professional qualifications:

- suitable professional experience for a suitable length of time or, in any event, of no less than three years, in activities of administration, management or control or professional activities in the banking, insurance and financial sectors; or
- specific know-how in the field of financial reporting and auditing, in respect of listed issuers or their subsidiaries and in the management or oversight of related administrative procedures, acquired over at least five years of experience in positions of responsibility for operating structures within the company, the group or other comparable corporations or entities in terms of business sector and organisational structure.

The said Manager must furthermore meet the requirements of integrity imposed under regulations governing the assumption of corporate offices. Loss of the requisite of integrity determines fall from office.

On 26 June 2013, pursuant to the Articles of Association, and taking into consideration the opinion of the Board of Statutory Auditors, the Board of Directors appointed Stefano Grassi to serve, as of 1 September 2013, as Manager responsible for preparing the company’s financial reports, within the meaning of Article 154-*bis* of Legislative Decree no. 58/1998, after having ensured that he was fit and proper for such appointment within the meaning of Article 23 of the Articles of Association, and determining the powers and resources to be made available to him for the discharge of his assigned duties.

In order to fully comply with the Article in question, in early 2007, the Company launched an initiative known as the FARG - *Financial Accounting Risk Governance* Project, the management of which was entrusted to a specific structure charged with centrally coordinating all the related activities and supporting project-related worksites specifically established for such purpose. The previous section "*Main features of the Company's risk management and internal control systems related to the financial reporting process*" provides further information on FARG.

10.6 Coordination amongst parties involved in the internal control and risk management system

Methods of coordination between the various parties involved

in the internal control and risk management system have been established with the aim of avoiding overlapping and ensuring complete coverage of the various risks. Efforts to this end included the following: the Risks Committee - a collegial body in which members of the senior management and central managers acting as area heads participate - was instituted

- i) collegial meetings have been planned between the Board of Statutory Auditors and the heads of control functions, especially in conjunction with the preparation of the activity plan;
- ii) a specific circular was issued concerning the coordination of activities between internal audit, compliance, anti-money laundering and risk management with the aim of formulating an effective plan of activities, while respecting the independent authority of each;
- iii) a shared network folder was created for use by the various control functions;
- iv) the boards of statutory auditors of group companies periodically hold joint meetings;
- v) the Board of Statutory Auditors participates in the meetings of the Internal Audit and Risks Committee and the Chairman of the Board of Statutory Auditors participates in the meetings of the Remuneration and Nomination Committee;
- vi) the Board of Statutory Auditors periodically attends meetings of the Supervisory Board;
- vii) the various control functions perform the necessary analyses jointly on specific projects and subjects.

For information concerning the other parties involved in the internal control and risk management system, refer to Chapter 10, Internal Control and Risk Management System.

11. DIRECTORS' INTERESTS AND RELATED PARTY AND CONNECTED PARTY TRANSACTIONS

In compliance with the provisions set forth in Article 2391-*bis* of the Italian Civil Code and Article 4 of the Regulation on Related Party Transactions (approved pursuant to Consob Resolution no. 17221 of 12 March 2010, as further amended and extended by Consob Resolution no. 17389 of 23 June 2010), Banca Generali's Board of Directors - after hearing the opinion of the Internal Audit and Risk Committee set up within the Board of Directors and made up of independent directors - approved procedures aimed at ensuring the transparency as well as the procedural and substantive correctness of related party transactions (the "Related Party Transaction Procedure" or merely the "Procedure").

Following the adoption by the Bank of Italy, on 12 December 2011, of the Provisions on risk activities and conflicts of interest of banks and banking groups with Connected Parties, on 21 June 2012 the Board of Directors of Banca Generali, in view of the contiguity of the matters, supplemented the above Procedure by including the provisions on Connected Parties within the same Procedure and passing resolution on a new version of the "Related Party and Connected Party Transaction Procedure".

The new Related Party and Connected Party Transaction Procedure, in force as from 31 December 2012, is intended to implement Consob and Bank of Italy regulations, by adopting, at group level, rules on Related Party and Connected Party Transactions governing the related investigation activities and approval, reporting and disclosure powers.

The Procedure shall apply to Related Party Transactions and Connected Party Transactions:

- a) are to be effected in exercise of the Company's powers of management and coordination over subsidiaries within the meaning of Article 2359 of the Italian Civil Code; and
- b) pursuant to the system of delegated powers currently in force, are subject to prior assessment and approval by the Company.

Authorisation must be obtained from the Company in any event for any and all Highly Significant Related Party Transactions or Connected Party Transactions to be effected by Italian or foreign subsidiaries within the meaning of Article 2359 of the Italian Civil Code.

To ensure full and proper disclosure of any and all Related Party and Connected Party Transactions effected by the Company, the Procedure also requires:

- (i) the Company's Board of Directors to include an account of all related party and connected party transactions concluded during any financial year, including through Subsidiaries, in the Directors' Report mentioned in Article 2428 of the

Italian Civil Code;

- (ii) the decision-making body through the Chief Executive Officer shall report to the Board of Directors as well as the Board of Auditors in respect of the conclusion of any and all Moderately Significant Related Party and Connected Party Transactions, at least on a quarterly basis;
- (iii) the Chairman of the Board of Directors shall ensure that adequate information on all Moderately Significant Related Party Transactions pertaining to the Board of Directors and all Highly Significant Related Party Transactions without exception, is made available not only to all Directors in compliance with Article 2381 of the Italian Civil Code, but also to the Board of Statutory Auditors;
- (iv) the Board of Statutory Auditors shall monitor compliance with the provisions of the above-mentioned Procedure and shall submit a report in such regard to the Shareholders' Meeting pursuant to Article 2429, paragraph 2, of the Italian Civil Code and Article 153 of the Consolidation Law on Finance.

Moreover, since Banca Generali belongs to the Generali Group, any and all transactions effected with related parties of the parent company Assicurazioni Generali must be identified and managed in accordance with the provisions of the Procedures adopted by Assicurazioni Generali in such regard, with the result that in certain cases, the said transactions may be subject to prior approval by the parent corporation.

The Procedure for Related Party Transactions can be viewed on the corporate website (www.bancagenerali.com), section *Corporate Governance - Corporate Governance System - Governance Policies*.

Moreover, the Prudential Supervisory Provisions for Banks, and, in particular, Bank of Italy Circular no. 263/2006, as amended by the 9th update of 12 December 2011, introduced new industry-wide regulations governing risk-taking and conflicts of interest in respect of Connected Parties (Title V, Chapter 5, of the said Circular). The provisions in question are aimed at containing the risk that the closeness of certain persons to the bank's decision-making centres could compromise the objectivity and impartiality of decisions pertaining to the approval of loans and other transactions involving the said persons, and potentially give rise to distortions in the resource-allocation process, expose the bank to risks that are not adequately measured or contained, and/or result in harm and losses to depositors and shareholders. In pursuit of this objective, the aforesaid regulatory provisions include within the scope of the term "Related Parties", first and foremost, the company top management, main shareholders and other persons in a position to influence bank management, in light of their seniority or authority, or otherwise, the delegated

powers vested in them, whether to be exercised individually or jointly with others. The regulatory provisions specify that conflicts of interest might emerge even in course of business and other dealings with subsidiaries or entities over which the bank exercises considerable influence, or in respect of which the bank is significantly exposed pursuant to loans, and/or as a result of participating interests held in the same.

Under the aforesaid provisions, any related party and any and all persons thereto connected fall within the scope of the definition of the term "connected parties", all of which are subject to quantitative restrictions and procedural rules imposed under the said regulatory framework. The quantitative restrictions consist in the imposition of prudential limits on the amount of risk a bank or banking group may assume in respect of the said parties, it being understood that the related ceilings are differentiated on the basis of the type of related party in question, with a view to ensuring proportionality with the closeness of the ties and the repercussions of associated risks in terms of sound and prudent business management. In light of the greater risks associated with conflicts of interest in bank-industry relations, more stringent limits are envisaged for risk activities carried out with related parties qualifying as non-financial entities. The regulatory framework is completed by supplementing prudential restrictions with procedural requirements entailing specific decision-making steps designed to ensure the proper allocation of resources and adequately protect third parties against undue harm and losses. Moreover, specific guidelines relating to organisational arrangements and internal controls enable the identification of corporate bodies' responsibilities and corporate functions tasks with respect to the objectives of conflicts of interest prevention and management, as well as the obligations for identifying the Connected Parties and monitoring exposures over time.

In order to duly implement the above-mentioned regulatory framework, on 18 June 2012, Banca Generali's Board of Directors, approved specific "Internal Policies Governing Controls of Risk Assets and Conflicts of Interest in Relation to Connected Parties". Those Policies were updated by the Board of Directors on 26 June 2013 with the aim of reflecting the changes of an organisational nature effective 1 May 2013, which primarily entailed modifications of the organisational model for the management of risk assets and conflicts of interest with Connected Parties.

The said "Policies", *inter alia*:

- (i) require risk-appetite levels to be maintained in line with the strategic profile and organisational features of the bank or banking group, it being understood that the appetite for risk is also defined in terms of the maximum risk exposure towards connected parties, that may be considered acceptable in light of regulatory capital requirements, taking due account of the cumulative risk assumed in respect of the sum total of connected parties;
- (ii) without prejudice to Banca Generali's existing rules and reg-

ulations with regard to conflicts of interests, sets forth specific provisions governing business dealings with connected parties, and the sectors of operations and types of economic relationships involved, which whilst not necessarily entailing risk-taking, could give rise to conflicts of interest;

- (iii) regulate organisational processes designed to identify and individually list all connected parties, duly recording and quantifying any and all transactions effected with the same, at all stages of the relationship;
- (iv) require the implementation of checks and monitoring procedures designed to ensure that risks are properly assessed and managed throughout the course of dealings with connected parties, and that internal policies are appropriately designed and effectively enforced.

Obligations of Company officers and executives pursuant to Legislative Decree no. 136 of TUB

With regard to the obligations binding on company officers and executives of banks, it must be borne in mind that pursuant to Article 136 of the Consolidation Law on Banking (TUB), as last amended with Legislative Decree no. 179/2012, the said persons are barred from assuming obligations and/or effecting trading transactions of any nature or kind whatsoever, with the bank. This prohibition may only be overcome with the favourable resolution of the management body, and with the unanimous vote of all the members of the control body, without prejudice to the obligations set forth by the Italian Civil Code regarding the directors' interests as well as related party and connected party transactions.

In order to ensure thorough oversight of situations that might give rise to a potential conflict of interest, Banca Generali took the appropriate measures, and in particular all company exponents are directly and personally informed, upon appointment, of the content of the legislation in question through a brochure entitled "Obligations of Bank Exponents - General Concepts", which summarises applicable legislation and the pertinent interpretative guidance, as well as a "Declaration Form" that all company exponents are to compile and that satisfies both the Consob and Bank of Italy rules on Related Party and Connected Party Transactions and the prescriptions of Article 136 of the Consolidated Banking Act.

Moreover, bearing in mind that on 21 June 2012, in compliance with the requirements imposed under the Consob Regulation no. 17221 of 12 March 2010 and the Bank of Italy Provisions of 12 December 2011, Banca Generali S.p.A.'s Board of Directors approved the "Procedure for Related Party and Connected Party Transactions", within the framework of an internal project aimed at designing and implementing, both from an IT and an organisational standpoint, a multi-regulatory process for managing the type of transaction in ques-

tion, Banca Generali adopted the application software Easy Regulation that enables: (i) the identification and listing of Relevant Persons, whilst also allowing data pertaining to the same, to be managed and processed; (ii) the identification of those of Bank's transactions that fall within the scope of the various regulations; (iii) the registration and monitoring of the said transactions; (iv) the identification of transactions subject to specific procedural requirements, whilst supporting the computerised management and processing of transactions that exceed significance thresholds; (v) the production of personalised reports.

It must be pointed out that the process model selected by Banca Generali and supported by Easy Regulation is designed to ensure the streamlined, integrated and multi-regulatory management of Related Party and Connected Party Transactions and transactions with Company Executives pursuant to Article 136 of TUB.

Lastly, in compliance with the provisions set forth in the "Procedure Related Party and Connected Party Transactions" approved by the Board of Directors on 21 June 2012, the Bank's specific unit, made of one or more members of the Corporate Secretariat Service, has been entrusted with following main tasks: (i) updating the list of the persons and parties involved, after having identified the latter; (ii) managing decision-making procedures, information flows regarding the transactions, and relations with the Audit and Risk Committee and the Board of Directors; (iii) managing internal and external transparency obligations with supervisory bodies; (iv) drawing up the reports to be filed under the aforesaid Consob and Bank of Italy regulations; (v) coordinating activities with relevant corporate functions of the Parent Company and Subsidiaries.

12. APPOINTMENT OF THE BOARD OF STATUTORY AUDITORS

The Board of Statutory Auditors consists of three regular and two alternate Auditors, whose functions, duties and terms of office are defined by the law.

Pursuant to Article 20 of the Articles of Association, regular and alternate Auditors must possess the requisites required by law and are eligible for reappointment. Those whose situations are incompatible pursuant to law and persons who serve as company directors or officers in other companies beyond the thresholds established under applicable regulations, may not be appointed to the Board of Statutory Auditors, and if so appointed, will fall from office.

Auditors are appointed on the basis of lists of candidates, in accordance with the procedures set forth below.

Those shareholders who, alone or in conjunction with other shareholders represent the percentage of share capital envisaged for the Company to submit lists of candidates for appointment of the Board of Directors, are entitled to submit a list. Currently, the percentage is 1.00%. Each shareholder (as well as (i) shareholders belonging to the same group, the latter being defined to include the party, which need not necessarily be a corporation, exercising control within the meaning of Article 2359 of the Italian Civil Code, and each subsidiary controlled by, or under the common control of the said party or (ii) shareholders who have entered into the same shareholders' agreement within the meaning of Article 122 of Legislative Decree no. 58 of 24 February 1998 as further amended, or (iii) shareholders who are otherwise associated with each other by virtue of associative relationships contemplated under the applicable statutory and/or regulatory framework) may contribute to the submission of only one list. In the event of breach, account will not be taken of the relative backing given to any of the lists.

The lists are made up of two sections: one for the appointment of the regular Auditors and the other for the appointment of the alternate Auditors. The lists contain a number of candidates no higher than the number of members to be elected, listed by progressive number. Each of the two sections of the lists, save for those featuring less than three candidates, must present candidates in a manner that ensures gender balance. Each candidate may appear on only one list, upon penalty of ineligibility. Together with each list and within the term established for the filing of lists, the shareholders submitting the lists must also file the following documentation at the registered office: (i) information pertaining to the identity of the shareholders submitting the lists, with an indication of the percentage of share capital they jointly hold; (ii) exhaustive information on the personal and professional features of the candidates included in the list; (iii) a declaration by shareholders other than those who, even jointly, hold a controlling interest or relative majority stake, attesting the absence of associative relationships with the latter; (iv) the declarations in which each candidate accepts nomination and also certifies, under his own responsibility, the inexistence of

causes of incompatibility and of ineligibility, as well as possession of the requisites of integrity and professionalism which prevailing laws require for the office of Auditor of the Company. Within the term specified for the publication of the lists by the Company and in order to prove their entitlement to submit lists, shareholders shall file the documentation proving legal ownership of their shareholdings, in accordance with applicable laws and regulations, at the Company's registered office.

The lists, signed by the submitting shareholders, shall be filed at the Company's registered office no later than twenty-five days prior to the date set for the Shareholders' Meeting in first call. Furthermore, the list will be available at the Company's registered office, on the corporate website and in any and all forms required by applicable laws and regulations, no later than twenty-one days prior to the date set for the Shareholders' Meeting in first call. In the case where, by the aforesaid deadline, submission has been made of only one list or only of lists submitted by shareholders associated amongst themselves, the relevant statutory and regulatory provisions shall apply.

Each shareholder (as well as (i) shareholders belonging to the same group, the latter being defined to include the party, which need not necessarily be a corporation, exercising control within the meaning of Article 2359 of the Italian Civil Code, and each subsidiary controlled by, or under the common control of the said party or (ii) shareholders who have entered into the same shareholders' agreement within the meaning of Article 122 of Legislative Decree no. 58 of 24 February 1998 as further amended, or (iii) shareholders who are otherwise associated with each other by virtue of associative relationships contemplated under the applicable statutory and/or regulatory framework) shall be entitled to vote for only one list.

The first two candidates on the list obtaining the highest number of votes and the first candidate on the list obtaining the highest number of votes from amongst the lists submitted and voted by shareholders who are not associated, not even indirectly, with the shareholders who submitted and voted for the list obtaining the highest number of votes shall be deemed elected regular Auditors; the first candidate on the list obtaining the highest number of votes and the first candidate on the list obtaining the highest number of votes and submitted and voted by shareholders who are not associated, not even indirectly, with the shareholders who submitted and voted for the list obtaining the highest number of votes shall be deemed elected alternate Auditors. In the case where the number of regular Auditors belonging to the gender less represented falls short of the threshold established under applicable statutory provisions, the candidates appearing in the regular Auditor section of the list obtaining the highest number of votes will be replaced following the order in which the candidates were presented for election.

In the case where only one list is submitted, the entire Board of Statutory Auditors is appointed from the said list.

Should no list be submitted, the Shareholders' Meeting shall appoint the Board of Statutory Auditors and the Chairman thereof by majority of the votes cast, in accordance with law.

In the event of votes being equal between two or more lists the younger candidates will be elected until all the posts to be assigned have been filled.

The first candidate on the list obtaining the highest number of votes, from amongst those lists submitted and voted by shareholders who are not associated, not even indirectly, with the shareholders who submitted and voted for the list obtaining the highest number of votes on the overall shall be elected Chairman of the Board of Statutory Auditors. In the event of submission of a single list, the first candidate specified therein will take the chairmanship.

In the case of the death, resignation or forfeiture of an acting Auditor, the first alternate Auditor belonging to the same list as the replaced Auditor will succeed him. Such alternate will succeed him for a period conterminous with the term of the other acting Auditors in office at the time of his appointment as an Auditor. Should the outgoing Auditor be the Chairman of the Board of Auditors, his replacement on such Board shall also assume the Chairmanship of the Board of Auditors. In the case where it is not possible to proceed as indicated above and the procedure for the

replacement of the members of the Board of Statutory Auditors fails to ensure gender balance on the same, the term of the entire Board of Statutory Auditors shall be deemed to have expired in full with immediate effect, and accordingly, a Shareholders' Meeting must be called to pass resolutions on the appointment of a new Board of Statutory Auditors pursuant to the voting list system set forth above.

The members of the Board of Statutory Auditors must be selected from amongst persons who have acquired, on the overall, at least three years' experience in:

- a) professional activities or permanent university teaching in legal, economic, financial and technical/scientific subjects strictly pertinent to the Company's business activities;
- b) senior management functions in public entities or public administration operating in sectors strictly pertinent to the Company's activity.

In such regard, Article 20 of the Articles of Association provides that: (i) fields and sectors closely related to the Company's business activities shall include all those mentioned in point (a) above pertaining to banking, and economic sectors closely related thereto; (ii) economic sectors closely related to banking shall include the credit, parabanking, financial and insurance sectors.

Under the New Bank of Italy Provisions, the company body vested with control functions is required to periodically verify its own adequacy in terms of powers, functioning and composition, taking into account the scale, complexity and activities of the Bank.

The provisions in question also require the members of the company body vested with control functions to meet a level of professionalism in line with the size and operational complexity of the Bank, and to devote sufficient time and resources to discharging their duties, whilst also establishing that on the occasion of the appointment of company officers and periodically over time, the number of similar positions held must be verified and evaluated, with special attention to those requiring greater involvement in the current business of the Company. In light of the above, Article 20 of the Articles of Association, establishes, by way of reference to applicable regulations, both, the maximum number of other appointments a member of Banca Generali's Board of Auditors may simultaneously hold, and the requirements of professionalism to be met by the members of the said board.

In addition to meeting the requirements of personal integrity and independence and not labouring under any of the causes of unfitness or disqualification contemplated under special regulations and the Corporate Governance Code for Listed Banks, members of the Board of Auditors must also satisfy the requirements of professionalism set forth below, under penalty of forfeiting their appointments: at least one Standing Auditor and one Alternate Auditor (and in any event, the Chairman) must be registered with the Rolls of Certified Public Accountants, it being understood that sitting and alternate members of the said Board who do not meet this requirement must have acquired specific experience: a) as professional practitioners or full university professors specialising in law, economics, finance or technical-scientific fields closely related to the Company's specific sector of business; b) in managerial positions in public administrations or undertakings operating in sectors closely related to the Company's business operations.

Moreover, pursuant to the Bank of Italy Provisions, no member of the control body may hold any position within any body other than control bodies within other companies belonging to the group or financial conglomerate, and/or within companies in which the Bank holds, directly or indirectly, a strategic stake (that is to say, at least 10% of the share capital or voting rights at the Ordinary Shareholders' Meeting of the investee company, and 5% of the Banking Group's consolidated assets).

Satisfaction of the relevant requirements is verified by the Board of Directors in accordance with applicable supervisory regulations as well as the provisions of the Code.

Banca Generali's Board of Directors last verified satisfaction of the relevant statutory requirements for acting members of the Board of Directors on 8 May 2012.

All the members of Banca Generali's Board of Auditors must be enrolled with the Order of Certified Public Accountants and

Auditors, save for one member who must, in any event, meet the requirements of professionalism referred to above; all the members of the Board of Auditors must also be independent within the meaning of both Legislative Decree no. 58/1998 and the Self-regulatory Code.

The Board of Auditors last verified the independence of its members on 14 February 2014.

In carrying out the aforesaid assessments, the Board of Statutory Auditors applied all the criteria recommended in the Corporate Governance Code in respect of the independence of Directors.

Any Auditor who holds any interest, whether on his own behalf or on behalf of others, in any transaction effected by the Company, must give timely and exhaustive notice of the nature, origin and terms of the said interest, to the other Auditors and the Chairman of the Board of Directors. The same reporting obligations shall be binding, *mutatis mutandis*, on any Auditor falling within the scope of the cases contemplated in Article 136 of TUB.

The Board of Statutory Auditors has monitored the independence of the independent auditors, in terms of both compliance with the relevant requirements, and the nature and volume of non-auditing services rendered to the Company and its subsidiaries by the said independent auditors and entities belonging to the same network.

Given that, pursuant to statutory requirements, non-auditing services must be entrusted to an independent auditor, Article 20 of the Articles of Association vests the Board of Auditors with the power/duty to liaise with the other persons and parties with oversight responsibilities; forms of ongoing coordination have been developed to serve this purpose, entailing, inter alia, the scheduling of specific meetings especially for periodic exchanges of information and views between the Board of Auditors and the independent auditor. In respect of these issues the Board of Auditors may, if it deems fit, also avail of the advice and support of the Internal Audit and Risk Committee, as contemplated in the relevant Committee Rules.

Moreover, the Parent Company's control body must operate in close collaboration with its counterparts within subsidiaries. In performing its duties, the Board of Statutory Auditors coordinated its efforts with the control units (compliance, anti money laundering, internal audit and risk management).

The Chairman of the Board of Directors ascertained that the Auditors, after their appointments, could participate in initiatives aimed at providing them with an adequate knowledge of the business sector in which the Issuer operates, of the corporate dynamics and the relevant evolutions, as well as the relevant regulatory framework.

15. GENERAL SHAREHOLDERS' MEETINGS (Pursuant to Article 123-bis, paragraph 2, letter c) of TUF)

The procedures governing the conduct of Shareholders' Meetings are regulated by the Articles of Association and the Regulations of the Shareholders' Meeting.

The condition of shareholder implies acceptance of the Memorandum of Association and of the Articles of Association.

The Shareholders' Meeting is the body that expresses the Company's will through its resolutions. Resolutions adopted by Shareholders' Meeting in compliance with the law and the Articles of Association are binding on all shareholders, including those who are absent or dissenting.

The Shareholders' Meeting may be held at the registered office or at another venue, provided that it is in Italian territory. The Shareholders' Meeting is convened by the Board of Directors. Shareholders are called through published notice, under the terms and conditions required by applicable laws and regulations. The Shareholders' Meeting is called whenever the administrative body deems necessary and advisable or upon request of the Board of Statutory Auditors or of the shareholders, in accordance with the law, or in the other cases in which call of the Shareholders' Meeting is obligatory pursuant to law. The ordinary Shareholders' Meeting must be called at least once a year within 120 days of closure of the financial year. This deadline may be extended to 180 days where certain legal conditions are met.

In the cases provided by law, those shareholders who, alone or in conjunction with others, represent at least the percentage of share capital envisaged by current applicable regulations, are entitled to request call of the Shareholders' Meeting. Those shareholders who, alone or in conjunction with others, represent at least one fortieth of the share capital are entitled to request, in compliance with laws in force, integration of the list of items on the agenda.

The notice of call may specify the date of a second or third call, in the event that the Meeting does not prove to be legally constituted.

The persons or parties entitled to participate in the Shareholders' Meeting, in accordance with applicable laws, may participate in the Shareholders' Meeting, provided that they prove their entitlement pursuant to the law and that the notice from the intermediary responsible for keeping the accounts regarding the shares, in replacement of the deposit giving entitlement to attend the Shareholders' Meeting, has been received by the Company by the end of the third trading day prior to the date set for the first call of the Meeting, in accordance with Article 83-sexies, paragraph 4, of TUF, after the terms specified above, provided that it arrived within the start of the Shareholders' Meeting specifically called.

Shareholders may be represented by others in the Shareholders' Meeting in accordance with the provisions of the law. In compli-

ance with the provisions of Article 134 of TUF, the Company has appointed a representative for the exercise of voting rights.

Legal provisions are observed with regard to the validity of Shareholders' Meetings and their resolutions.

Ordinary and extraordinary Shareholders' Meetings are attributed all the powers to which they are respectively entitled pursuant to current regulations. The Ordinary Shareholders' Meeting shall establish the remuneration due to the organs it appoints. The said Shareholders' Meeting may provide for a lump-sum amount covering the remuneration of all company directors, including those vested with specific tasks, such lump-sum amount being subject to distribution amongst individual directors pursuant to the determinations of the Board of Directors. The Shareholders' Meeting shall also approve the remuneration policies and compensation plans based on financial instruments, to be implemented in favour of company directors, employees, and outside collaborators other than company employees. In respect of related party and connected party transactions, pursuant to the procedure adopted by the Company in such regard, the Shareholders' Meeting is vested with the decision-making powers assigned to it under applicable regulations. In emergency situations arising from corporate crises, any and all related party and connected party transactions subject, under law, to shareholder approval, may only be effected pursuant to shareholder resolutions passed in accordance with the terms, conditions, procedures and deadlines imposed under applicable regulations and the aforesaid Procedure adopted by the Company.

Under the Article 18 of the Articles of Association, the Board of Directors is exclusively qualified to deliberate on matters pertaining to the setting up or closing down of secondary offices, indication of which Directors may represent the Company and use the company signature, mergers, in the cases permitted by law, amendments to the provisions of the Articles of Association that no longer comply with new and mandatory regulatory provisions.

Nine Directors attended last Shareholder's Meeting on 24 April 2013. On that occasion, the Board reported in respect of completed and scheduled activities and ensured that all Shareholders were provided adequate information on all pertinent matters so as to enable them to make informed decisions. The Nomination and Remuneration Committee informed all Shareholders on the activities it performed in respect of remuneration policies.

Regulations of the Shareholders' Meeting

Pursuant to Article 23 of the Board Rules, the Company encourages Shareholders to attend all Shareholders' Meetings.

The Board shall report to the Shareholders' Meeting in respect

of completed and scheduled activities and shall ensure that all Shareholders are provided adequate information on all pertinent matters so as to enable them to make informed decisions about the items placed on the agenda of Shareholders' Meetings.

In compliance with the recommendations of the Code, the Shareholders' Meeting of 3 October 2006 approved its own Regulations (lastly amended by resolution of the General Shareholders' Meeting on 20 April 2011), setting forth the procedures to be followed in order to ensure orderly proceedings. The Regulations of the General Shareholders' Meeting are available for consultation at the Company's registered offices as well as on its website, under the section "*Corporate Governance-AGM-Attending the AGM*".

The said Regulations are aimed at regulating the proceedings of ordinary and extraordinary Shareholders' Meetings, and ensuring the proper and orderly functioning of the same and, in particular, the right of each shareholder to take part and express an opinion on the items under debate. The Rules, therefore, constitute a valid tool for ensuring the protection of the rights of all the Company's shareholders and the proper approval of shareholders' resolutions.

In particular, persons with the right to speak, the Directors, and the Statutory Auditors have the right to speak on each one of the issues placed up for discussion and make proposals on them.

Pursuant to Article 127-ter of TUF, shareholders are entitled to submit questions regarding the items placed on the Agenda even before the Shareholders' Meeting. Questions submitted prior to the Shareholders' Meeting shall be answered at the very latest during the course of the Shareholders' Meeting itself, even by treating several questions regarding the same subject-matter as a single query.

Entitled Attendees who intend to take the floor shall submit a written request to the Chairman, after the items on the agenda

have been read out and before the discussion on the item subject to the request to speak has been declared closed.

If the Chairman so authorises, requests to take the floor may be made by raising the hand.

In the case where written requests to take the floor are required, the Chairman shall grant the floor in accordance with the order in which requests to speak were received. In the case where requests to take the floor are made by the raising of hands, the Chairman shall grant the floor to the person who first raises his hand; in the case where it is not possible to determine precisely which person was the first to raise his or her hand, the Chairman shall grant the floor in accordance with the order established by the Chairman himself, at his sole discretion.

The Chairman and/or, on his invitation, the Directors and the Statutory Auditors, respond to entitled attendees according to their areas of expertise or when deemed useful by the Chairman, after the speech of each one or after all speeches have been given on each item of the agenda, taking due account of any and all questions raised by shareholders prior to the Shareholders' Meeting and left unanswered until the latter. Persons with the right to speak have the right to make one speech on each item on the agenda, except for a reply and a statement of vote, each of a duration of no more than five minutes. The Chairman, taking into account the issue and the importance of the single items on the agenda as well as the number of persons requesting the floor and any and all questions raised by shareholders prior to the meeting and left unaddressed by the Company, shall announce the period of time available for each Entitled Attendee to take floor, such time, as a general rule, being established at no less than five and no more than ten minutes for each speaker. When such period of time has expired, the Chairman may invite the entitled attendee to conclude within another five minutes.

16. OTHER CORPORATE GOVERNANCE PRACTICES (pursuant to Article 123-bis, paragraph 2, letter a) of TUF)

Further information of corporate governance practices is provided in the relevant individual paragraphs of this Report.
